Use the "OYV Fit" app on your phone to pair with your watch.

III. Functions

1. Multiple sports

OYV Fit watch has various sports modes. Tap the sports icon on the watch to enter the corresponding sports mode. In the sports mode, the watch will record your exercise time, distance, steps, heart rate and other information to help you do exercises in a better way.

2. Health monitoring

OYV Fit watch has various health monitoring functions such as heart rate monitoring, blood oxygen monitoring and sleep monitoring;

Heart rate monitoring: slide the screen to the heart rate measurement screen and wait for a moment. Then the watch will automatically measure your heart rate. Please remain relatively still while measuring your heart rate so that the watch can deliver heart rate data more accurately.

Blood oxygen monitoring: low blood oxygen levels can affect your health. OYV Fit watch provides you with the ability to monitor your blood oxygen, simply tap the tap the blood oxygen icon in your watch to automatically start the measurement.

Sleep monitoring: a good night's sleep is very important for us. OYV Fit watch can record your sleep quality every night, including indicators such as deep sleep duration, light sleep duration, and awake duration; this function needs to be enabled in the corresponding part of the APP.

Note: heart rate, blood oxygen and sleep monitoring data arefor reference only and shall not be used as a basis for medical diagnosis.

3. Reminder function

OYV Fit watch provides message reminder, call reminder, alarm reminder, sedentary reminder, etc. It is a small butler of your life. After you turn on the corresponding reminder function on the APP, the watch will stay connected with your phone and vibrate to remind you when there is an incoming call or a new message to ensure you won't miss any important information.

4. Other functions

OYV Fit watch also offers features like weather reports and stopwatch, and it is all waiting for your to explore and discover.
