p15

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE : This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide resasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the product does cause the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the product and receiver.

- Connect the product into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

p16

Hard Reset Instructions:

Trouble Shooting:

If your watch is not able to be fully charged or makes a sound that cannot be turned off, you require a hard reset.

Simply reset your watch by pushing a pin in the hole beside the USB port. You should feel a slight click which will reset your watch and restart it. This should resolve your issue
