Model # PRA8000+PRA8-5

Instruction Manual

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:

This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

Oklahoma Sound

Dear Valued Customer,

The new Oklahoma Sound® Model Audio Public Address System incorporates all of today's technology advances in an easy to use stylistic cabinet.

It is the perfect companion for a teacher in class. Plus, weighing in at a smart 19 lbs., it is easily transportable with its built-in handle, for use in the gym or playground. A 40-watt Solid State amplifier is matched to an 8-inch built-in speaker, knocking out more strong, clear sound than any in its class.

The included wireless handheld microphone will broadcast effortlessly up to 100 feet away from receiver/speaker. The control panel also includes a ¼" mic input for additional wired microphones, as well as a ¼" & 1/8" auxiliary inputs for iPods & other media players. Sync your smart phone direct to the sound system through built-in Bluetooth technology or play MP3 files through a built-in USB port.

The PRA-8000 even includes an SD/MMC Port. Use with an AC wall plug, or use remotely for up to five hours while powered by its built-in rechargeable lead acid battery. The built-in underside receptacle allows for Tripod set up. Tripod optional.

Sincerely,

Oklahoma Sound

Although extreme care goes into manufacturing and packing of this unit, mistakes are possible. If you encounter any defects or you feel that something is missing, please call our toll free customer service line at 1-800-261-4112 for courteous and immediate resolution to your problem.

Sincerely , Oklahoma Sound
