2. Pairing

Use the XXXX app on your phone to pair with your watch.

Android APP download

iOS APP download

III. Functions

1. Sports activity tracking

XXXX has various sports modes. Tap the sports icon on the watch to enter the corresponding sports mode. In the sports mode, the watch will record your exercise time, distance, steps, heart rate, and other information to help you get the most from your workout.

2. Health monitoring

XXXX has various health monitoring functions such as heart rate monitoring, blood oxygen monitoring and sleep monitoring.

Heart rate monitoring: Slide the screen to the heart rate measurement interface and click the heart rate icon in the watch to measure the heart rate. During measurement, please keep relatively still so that the device can output heart rate data more accurately.

Blood oxygen monitoring: Low blood oxygen levels can affect your health. XXXX provides you with the ability to monitor your blood oxygen, simply tap the blood oxygen icon in your watch to automatically start the measurement.

Sleep monitoring: A good nights sleep is very important for wellbeing. Deepro Niagara can record your sleep quality every night, including indicators such as deep sleep duration, light sleep duration, and awake duration. Please note that this function needs to be manually enabled in the XXXX app in order to be used.

Note: Heart rate, blood oxygen and sleep monitoring data are for reference only and should not be used as a basis for medical diagnosis.

3. Notification functions

XXXX can provide various notifications i.e. for messages, incoming calls, and alarms. You can also set up sedentary reminders to remind you to move during the day. After you turn on the corresponding reminder functions in the XXXX app, the watch will stay connected with your phone and vibrate to remind you when there is an incoming call or a new message to ensure you won't miss any important information.

4. Other functions

XXXX also offers features like weather reports, audio controls, stopwatch, flashlight, find-my-phone service and much more - it is all waiting for you to explore and discover.
