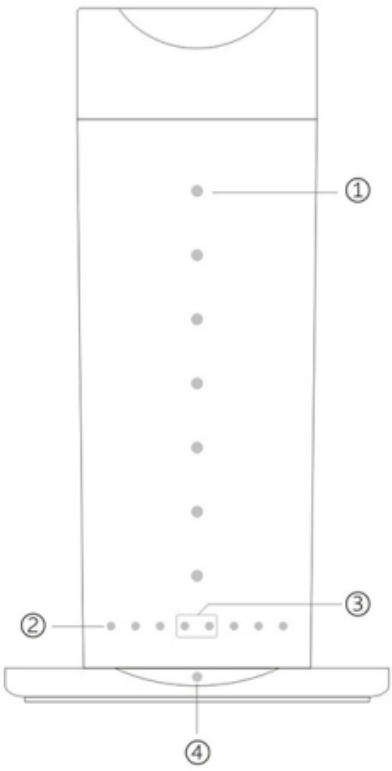
Part Name and Description



- ① Headlamp units indicating water level/temperature
  - When hands touch the glass , the LED lighting system is activated, and the LED headlamp unit corresponding water level will be light, and it will be out when hands leave the glass for 15 seconds.
  - Red lights mean hot water; Yellow lights mean warm water, Blue lights mean cool water.

- ② Volume of water headlamp units
  - After drinking a glass of water, one new light of the bottom LED headlamp units will be up until drinking 8 glasss a day.
  - When equipment or family remind drinking water, the system will analyze intelligently which glass of water you should drink, and remind you by blinking. For example, the former three LED lights are up for long time, and the fourth light is twinkling means you have drunk three glasss of water, and remind you that you should drink 4 glasss of water.

- ③ charging /bluetooth connection headlamp units
  - when charging, the bottom fourth and fifth LED lights will lit up at the same time, and they will be out when charging is completed.
  - When bluetooth connection, both lights will flash, and put out after the connection is successful.

- ④ glass mat charge indicator lights
  - glass mat is wireless charging device. when charging, the light flash. And it will be up for long after the completion of charging.
  - When the glass mat LED lights flash fast, charging is unusual. please check whether the charger is on normal operation.

Introduction of Function

Transmit your affection
One to one communication, reminding friends drinking water, passing concern

Intelligent monitor
Water temperature and water volume will be clear at a glance

APP curve of drinking water
View your personal water curve, helping improve the drinking habit

Intelligent reminder
Remind drinking water regularly

Wireless charging
Integrated design, glass mat is the wireless charger

Carry Conveniently
Sealing cover design can resistant spill and it is easy to carry

Healthy material
Use Tritan material. It is the specified material for baby products sold in Europe and the United States

Minimalist design
perfect fusion of Fashion and technology

Quick Operation Guide

APP Installation Bluetooth Connects glass

Sweep the code to download the android version of the APP

Step 1

Download the APP. For the first time use, scan on the left side of code by mobile phones, download ROBINglass APP for installation.

Open the APP, sweep the code to authenticate ID

Step 2

Open the APP, click "certification ID", scan the qr code on the left, register individual account, activate ROBINglass.

Note: the android mobile phone supporting bluetooth 4.0 intelligent equipment must meet two conditions: firstly, the phone hardware support bluetooth 4.0; Second, Android system of mobile phone must base on the Android 4.3 or above.

Step 3

Bluetooth connects glass: according to the prompt, after the activation, enter the main interface, click on the icon in the upper left menu to enter management menu, and operate according to the below instructions.

Click on the icon in the upper left menu to enter management menu

In the function of the pop-up menu, select "set function"

Click on the "bluetooth" ,and touch glass at the same time, and the fourth and fifth lights will flash, enter into the state of bluetooth matching

Wait for a few seconds, the glass is connected to the APP, and light will go out

Step 4

Bluetooth matching is successful, return to the APP main interface, you can use every function of the APP.

Check the water volume

Check the water temperature

Common sense of drinking

Add friends and family account, remind them to drink water

Use and Clean

- **Charging**
  - When used for the first time, please start the water glass, recharging after using all the electricity.
  - In the use process, if the water glass lights flash, or when you touch the glass, lights do not work, it means the battery is not enough, and it needs to recharge.
  - Glass mat has wireless charging function. Before using, connect glass mat to the computer USB interface or cell phone charger through cable, and then put the glass on the glass mat.
  - During charging: the fourth and fifth blue lights are up at the same time, and are out after charging is completed; glass mat LED lights flash, and are for long after the completion of the charging; If LED lights flash quickly, it means charging is abnormal. at this time, please check whether the charger is on normal operation.

    Note: wireless charging is only applicable to this product, please don't put metal conductive items and mobile phones and other electronic products on the glass mat, so as to avoid unnecessary damage to your product.

- **Use**
  - Besides water, this product can also be used to brew coffee, tea and other drinks, but in order to avoid tea or coffee polluting glass color, please clean immediately after use.

- **Clean the glass**
  - clean with water or other conventional tableware cleaning fluid.

- **Clean the charging seat**
  - Clean the dirt on the wipe with a soft cloth.
  - Before cleaning charge, be sure to pull out the power plug from the socket.

Matters Needing Attention

- Do not charge in the bathroom to prevent water and damp
- Battery cannot be replaced by the users themselves, it can only be replaced by staff in service center authorized by our company. non-professional personnel is prohibited to disassemble the product.
- It is normal that glass feels a little hot when charging; but If the glass feel very hot, please cut off power supply, and go to the customer service center for checking.
- Avoid falling this product from a height, so as not to damage the sensor equipment, influence the accuracy of the product data.
- This product design is only used for drinking water, do not use it for any other purposes.

Do not immerse ROBINglass in water, and at the same time, don't rinse glass bottom.

Although the ROBINCUP circuit board made a high precision waterproof design, but if the product is flooded, it will cause the inconvenience of cleaning, and may affect the stability of the product.

Explanation of Warranty

- Thank you for purchasing ROBINglass glass, the following is the guarantee of ROBINglass.
- From the date of purchase, This product enjoy 1 year free warranty service.Warranty with this card, and you should provide shopping vouchers (shopping invoice or transaction records/order number in online mall).
- The following circumstances do not belong to the warranty scope:
  - Product damage caused by improper use or lack of reasonable maintenance (such as using the wrong current voltage, insert the products unqualified socket, and other artificial damage).
