•SPECIFICATIONS

10W
Input: 5V/2A 9V1.67A
Output: 10W, 7.5W, 5W
Charging Distance: ≤8mm
Charging Conversion Rate: ≥76%

•FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

BACK

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

•OTHER IMPORTANT SAFETY INFORMATION

To avoid danger of suffocation, keep plastic bag away from babies and children. Do not use this bag in cribs, beds, carriages or playpens. This bag is not a toy. Disposal of old electrical & electronic equipment (Applicable in the European Union and other European Countries with separate collection systems). The trash can symbol (seen on bottom right) on the product or on it packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for recycling of electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling. For more detailed information about this product, please contact your local household waste disposal service or the shop where you purchased this item.

•INSTRUCTIONS

1- Put the charging Pad on the stand.

2- Connect the charging cable to the bottom of the charging pad next to the bottom bracket. Put the charging cable in the cable slot and press it tightly.

3- Tear off the protective film of the bracket anti-skid pad.

4- Place your mobile phone in the center of the pad and your device will begin to charge.

5- After connecting to the power source, the LED indicator light will turn red, indicating a standby state. When you place your phone on the pad to charge, the light will turn blue and begin to blink. When a foreign object is placed on the charging pad, the FOD (Foreign Object Detector) LED indicator flashes once per second until the foreign object disappears.

•LIMITED LIFETIME WARRANTY

Our product is warranted for a limited lifetime warranty from the date of purchase. The warranty is provided on all material defects and workmanship. Guarantee of 24 months does not apply to decrease in the effective capacity caused by its use or age. WE RESERVE THE RIGHT TO CHANGE TECHNICAL SPECIFICATIONS. For more information please visit. www.goljoy.com.

ATTENTION VENDOR: PLEASE FOLD ON GREEN LINES AND PRINT DOUBLE SIDED
DO NOT PRINT GREEN LINES WITH MANUAL

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC’s RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
