If your earbuds stop syncing with each other, please follow the below steps to reset the earbuds:

1. Put 2 earbuds back to the charging case and make sure both indicators are lighting.
2. Long press both earbuds' buttons for about 5 seconds, the indicator will start flashing 3 times.

9

FAQ

Q: Why does signal interruption occur in some places, such as along the railway and the airport?

A: There are usually lots of underground cable lines along the places mentioned above, which might cause electromagnetic interference and result in the signal interruption.

Q: My earbuds don't charge, what can I do?

A: Please try to follow the below steps:

1. Clean the charging slot on charging case.
2. Clean the charging connector on earbuds.

10

Q: Why won't my earbuds power on/off automatically?

A: The earbuds would not power off automatically when the case is at low battery or out of power. Please recharge the case. And you can long touch for 4 seconds to power on and long touch for 4 seconds to power off the earbuds.

Q: Will the Bluetooth mouse cause the signal interference?

A: Perhaps. When your Bluetooth mouse and earbuds are connected to the same device, it might happen.

1. Carregando os fones

luz indicadora

Carregando:
O indicador vermelho está ligado.
Totalmente carregado:
O indicador vermelhoesta desligado.

2. Carregando o estojo

- ····· <25%
- ••••· 25%-50%
- ••••• 50%-75%
- •••••• 50%-100%

Quatro luzes estarão acesas quando estiver totalmente carregado

7

COMO USAR A CONEXÃO MULTIPONTO?

1. Ligue o Bluetooth do dispositivo 1 encontre "TE" no dispositivo 1 e conecte-o.
2. Se você deseja emparelhar com dois dispositivos simultaneamente, desligue o Bluetooth do dispositivo 1 primeiro e, em seguida, ligue o Bluetooth do dispositivo 2, encontre "TE" no dispositivo 2 e conecte-se a ele.
3. Ligue o Bluetooth do dispositivo 1 e dos dispositivo 2. O TE permanecerá conectado a ambos os dispositivos.

Observação: quando você quiser alternar para o dispositivo 2 enquanto estiver usando o dispositivo 1, primeiro faça uma pausa na reprodução de áudio do dispositivo 1.

INSTALAR O APLICATIVO TRANYA AUDIO

Requisito do dispositivo: IOS10.+ ou mais recente, Android 6.0+ ou mais recente (Suporte Bluetooth 4.0)

1. Abra sua loja de aplicativos e pesquise "Tranya Audio" para instalar.
2. Ou digitalize o seguinte código QR para instalar o aplicativo "Tranya Audio".

8

COMO RESETAR OS FONES

Se seus fones pararem de sincronizar um com o outro, por favor reestabelecê-los conforme abaixo, para resolver o problema:

1. Coloque 2 fones de ouvido de volta no estojo de carregamento e certifique-se de que ambos os indicadores estejam acesos.
2. Pressione e segure os botões de ambos os fones de ouvido por pelo menos 5 segundos, até que os LEDs brancos comecem a piscar 3 vezes.

9

FAQ

Q: Por que a interrupção do sinal ocorre em alguns lugares, como ao longo do metrô ou aeroporto?

A: Geralmente, há muitos cabos subterrâneos nos lugares mencionados acima, portanto são mais propensos a produzir interferência eletromagnética, que resulta no sinal interrompido. Se você ainda estiver experimentando sinal com frequência, você pode ter um item com defeito. Por favor, entre em contato conosco. Faremos o nosso melhor para responder a todos os perguntas dentro de 12 horas.

Q: Meus fones não carregam, o que posso fazer?

A: Por favor, tente os seguintes passos abaixo:

1. Limpe o slot de carregamento do estojo.
2. Limpe o conector de carregamento dos fones.

10

Q: Por que meus fones não ligam ou desligam automaticamente?

A: Os fones podem não desligar automaticamente quando o estojo está com pouca ou nenhuma carga. Por favor, recarregue o estojo. Você também pode Toque por três segundos para ligar ou manter Toque por três segundos para desligar os fones manualmente.

Q: Mouses Bluetooth podem causar interferência no sinal?

A: Talvez, se o mouse Bluetooth e os fones estiverem conectados no mesmo dispositivo.

FCC statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause u ndesired operation.
Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a
Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to
which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.

Product Model: T6 PMN: True Wireless Earbuds

ISED statement
English:
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada’s licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada. L'exploitation est soumise aux deux conditions suivantes : (1) Cet appareil ne doit pas provoquer d'interférences. (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.
cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.
Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with minimum distance 0mm between the radiator & your body. L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. Cet équipement doit être installé et utilisé avec une distance minimale de 0 mm entre le radiateur et votre corps.
