This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Important safety instructions

- Please read and keep this user manual.
- Do not expose your Hybroad Set-Top Box to rain, moisture or any type of Hybroad. Clean only with a dry cloth.
- Do not install your Hybroad Set-Top Box near any type of heat source and do not expose to direct sunlight.
- Place your Hybroad Set-Top Box with the logo facing upwards, to avoid dust getting in through the ventilation holes.
- Do not remove the plastic casing of your Hybroad Set-Top Box or make any other modification. Refer all servicing to qualified personnel only.
- Only use the accessories included or recommended by the manufacturer.
- Keep your Hybroad Set-Top Box away from small children.
- Protect the power cord from being walled on or pinched.
- Take care to place batteries into remote control correctly.
- Please dispose of used batteries properly, following local regulations.
