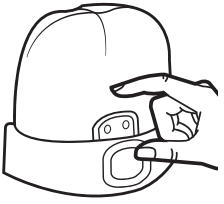
CHARGING

To charge the LED light, simply remove it from the hat and take off the protective USB cover to reveal the connector. Charge directly in any USB port for up to 2 hours.
To charge the bluetooth headset, it is recommended to remove this from the hat also. Use the micro usb cable supplied and charge in any USB port.

BLUETOOTH RECHARGEABLE LED HAT

QUICK START GUIDE



WASHING

Pull the fold of the hat down and push the light inwards to remove it. To remove the Bluetooth headset, simply slide it out of its pocket and take care not to damage the wire. The hat can be hand washed when these are removed.

DO NOT WASH WITH LIGHT AND HEADSET STILL ATTACHED.

FCC Caution.

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) this device must accept any interference received,
including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the
party responsible for compliance could void the user's authority
to operate the equipment.

Note: This equipment has been tested and found to comply with the
limits for a Class B digital device, pursuant to part 15 of the FCC
Rules. These limits are designed to provide reasonable protection
against harmful interference in a residential installation. This
equipment generates uses and can radiate radio frequency energy and,
if not installed and used in accordance with the instructions, may cause
harmful interference to radio communications. However, there is no guarantee
that interference will not occur in a particular installation. If this
equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is
encouraged to try to correct the interference by one or more of the following
measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to
which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
