Hismith sex machines are designed for ultimate pleasure

About HISMITH®

When we started the Hismith adventure in 2012, sex toys had become more compact and better looking, but you still needed to do the job yourself. We were only a bunch of horny engineering students back then, but we just knew there had to be a better way. Machines have already taken over most of the jobs that us humans used to do. So, we asked ourselves: why not blowjobs?

And so, our mission became to make ultimate pleasure available to anybody, anywhere, with the touch of a button. We take great pride in creating our premium sex machines. Experience harder, better, faster and longer sex than any human can ever offer you. Our brand new Hismith APP offers you full control of your Hismith device(s) through your smart phone. The app adds another layer of features and functionalities such as: Giving control of your sex machine to someone else, easily designing and saving your own sex machine programs, a social section to find others to play with and much more.

HISMITH, ultimate pleasure.
