HOW TO PLAY

Dinobytes are digital pets with a bounce!

Help your Dinobyte thrive and grow by bouncing it to reach new levels. In the app, the Dinobyte has a home with several rooms in which mini games are opened and the Dinobyte does activities while you bounce the ball. Give your Dinobyte exercise by bouncing the ball in a frenzy. Then go to the painting room and bounce to create splatter art together!

By keeping the Dinobytes happy and healthy, you'll unlock new features, functions, and badges for being a pet master.

Be sure to keep your Dinobyte bouncing! Inactivity causes Dinobytes to turn into fossils again. But don't worry, you can still save them and break them free to continue playing.
