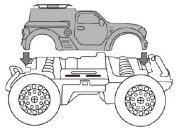
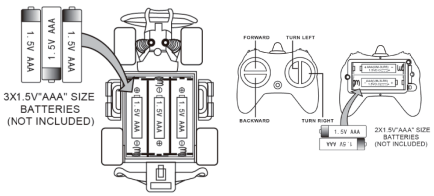
PRODUCT CONFIGURATION

INSTALL THE CAR COVER SHOW



HOW TO INSTALL THE BATTERY



DESCRIPTION OF AUTOMATIC CODE MATCHING

1. After installing the battery into the car and remote control, turn on the switches of the two and start matching. The green light at the bottom of the car lights up, and the red light on the remote control flashes. When the red light on the remote control stops flashing, it indicates successful connection.
2. Each remote control can only be connected to one remote control car. When the connection is successful, each car will not interfere with each other. Note: Multiple cars cannot be connected at the same time.
3. The remote control did not find a signal from the remote control car when it was energized after one minute, and the power indicator was flashing, and the power switch must be restarted to link the frequency.
4. When you need to pair other remote control cars of the same model, you need to turn off the power of the remote control and the remote control car to re-pair.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could
void the user's authority to operate the equipment.
