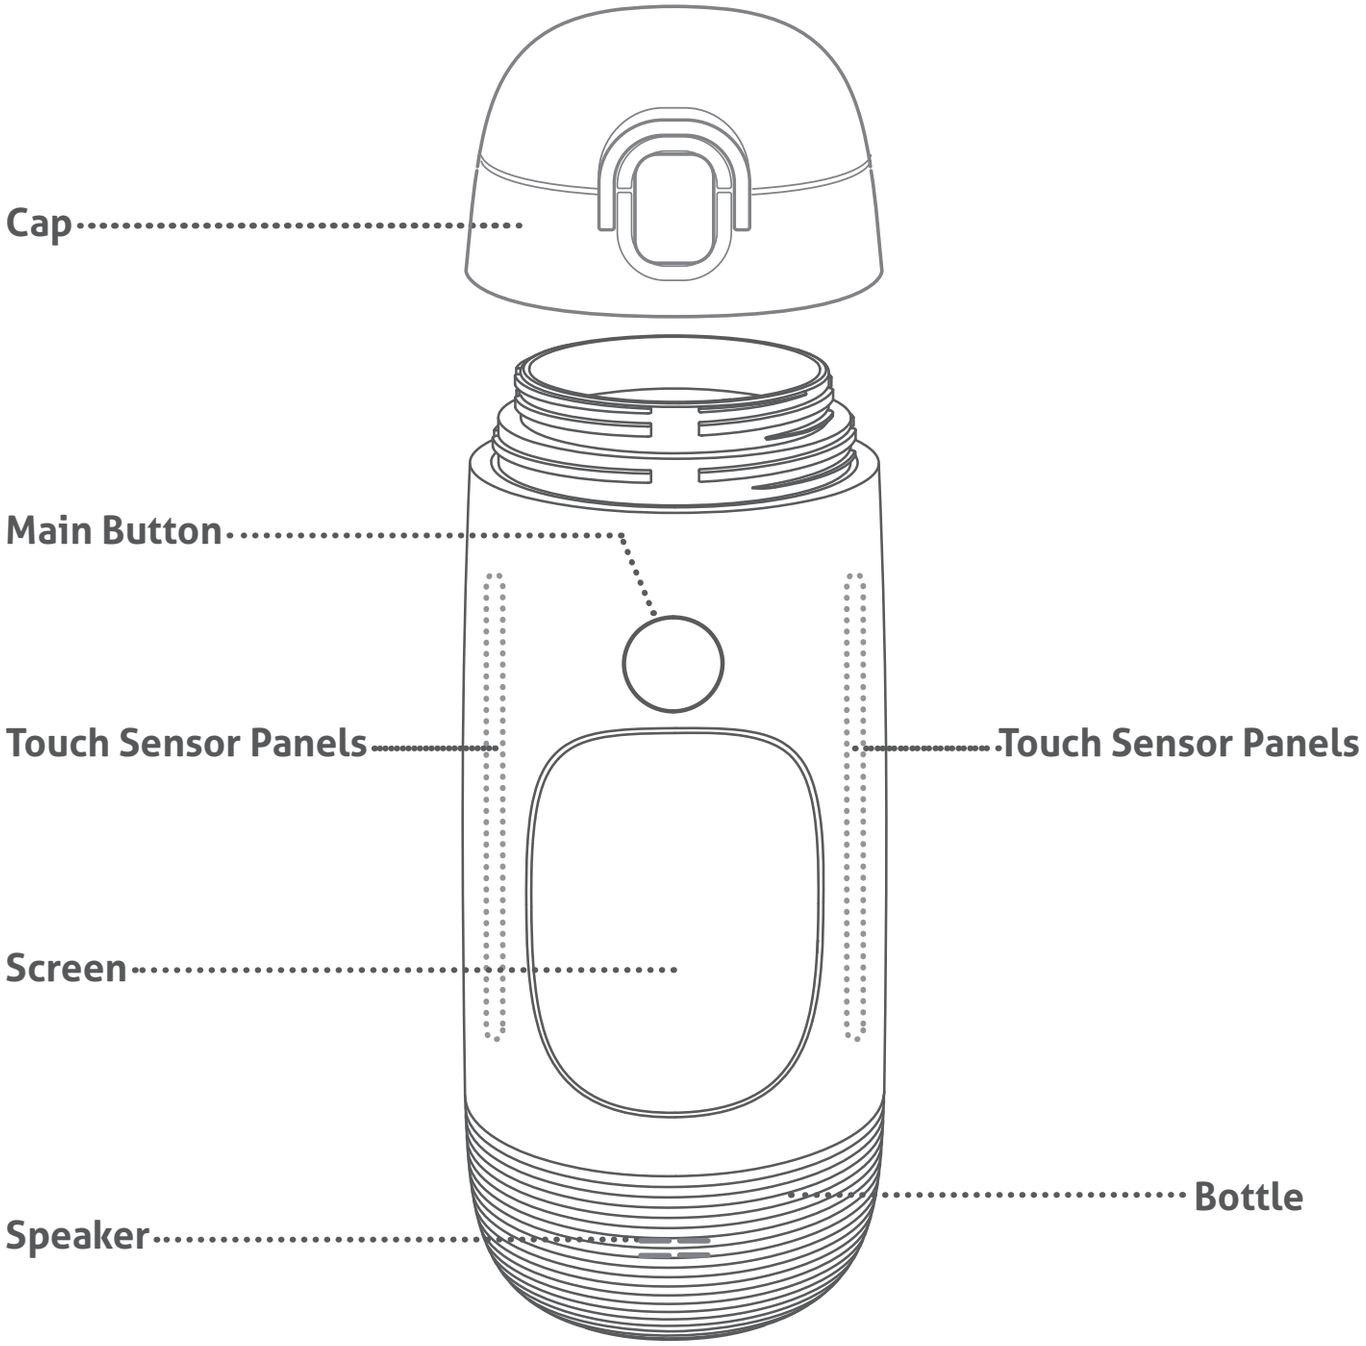
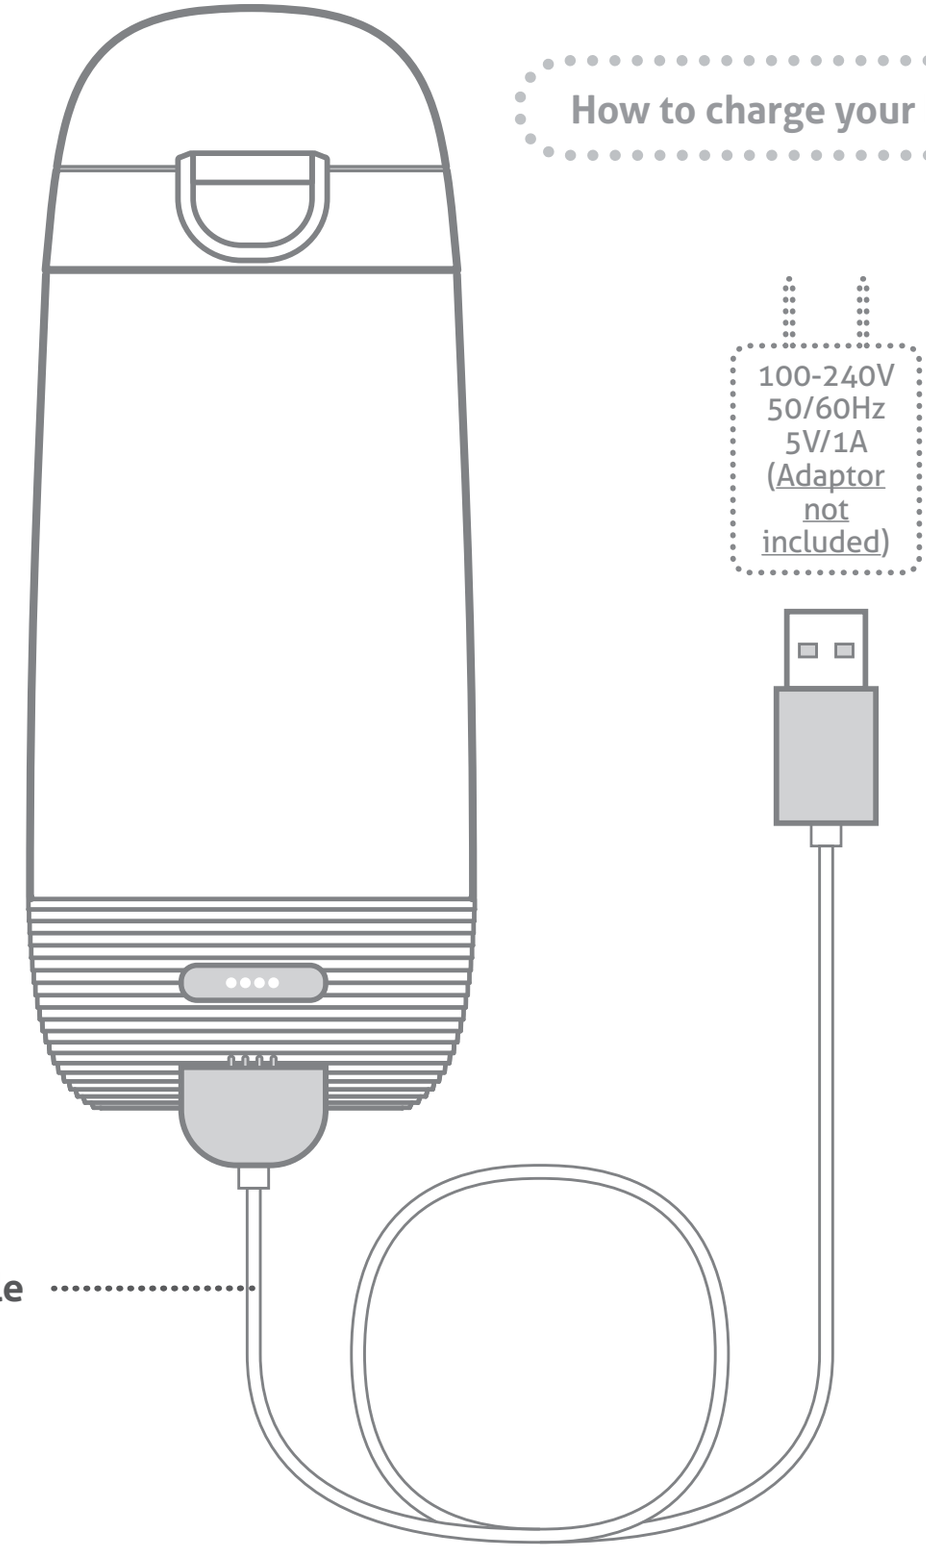
Feature Overview

What makes up the bottle



How to charge your bottle



Getting Started

1. **Long press the home key to start Gululu.** In the case of powering off, please charge it for 20 minutes and try again.
2. Download Gululu App.
3. Finish registering and creating the child' s profile as instructed by the App, and select the favored Gululu Water Fairy.
4. Click on「+」on the right side of Water Fairy and "match" the bottle with the profile of the child.
5. **The bottle shall get restarted automatically after successful match.** The Water Fairy selected by the child will emerge in the screen.

Gululu App

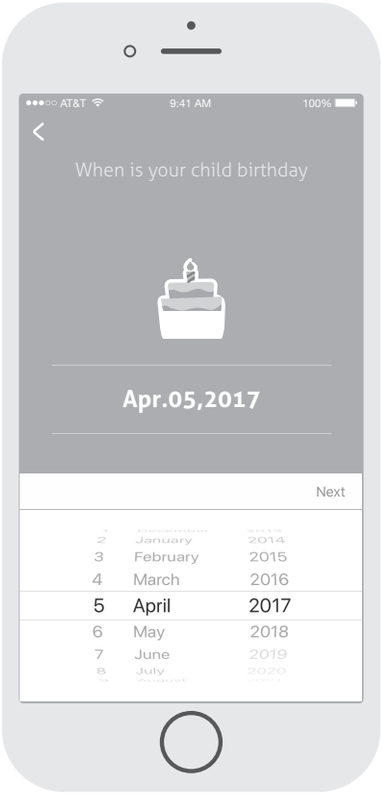
Download on the App Store

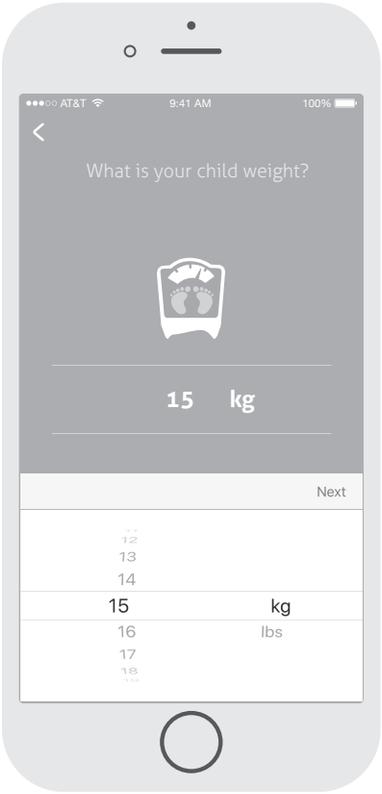
GET IT ON Google Play

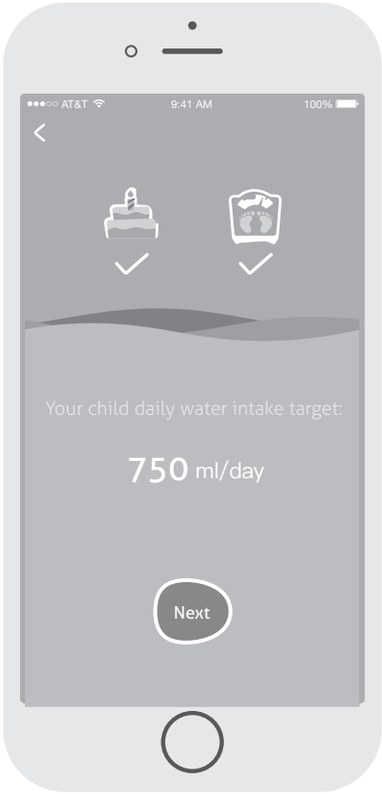
Scan here

Using the Gululu App

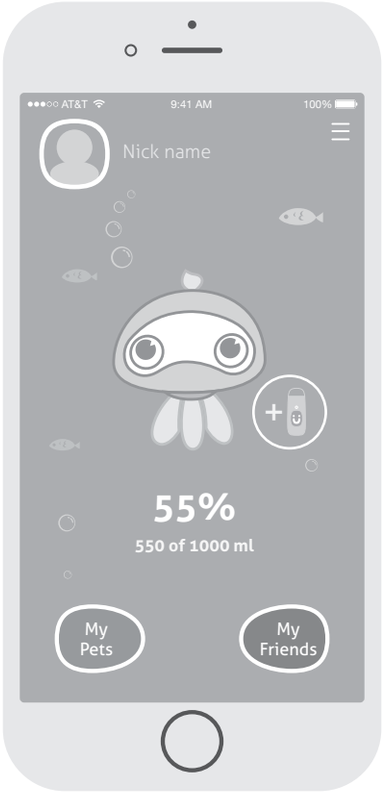
1. Create profile for the child: enter the date of birth and the weight of the children. The App shall recommend the proper amount of water intake based on the age and the weight.





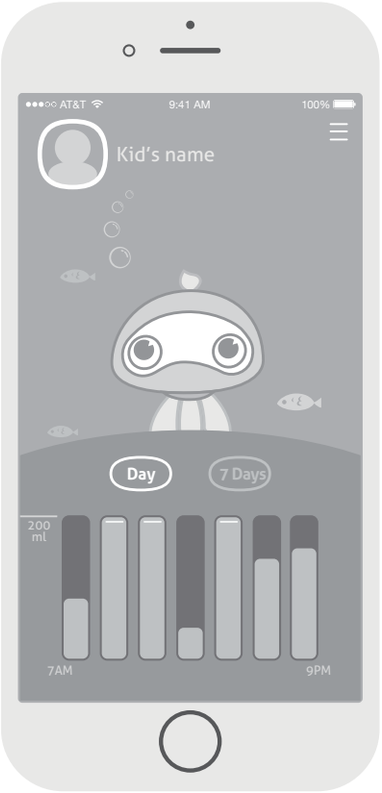


2. **Match the bottle:** click on「+」on the right side of the Water Fairy and "match" the bottle with the profile of the child by following instructions. Check water intake history, add friends and download the latest games after successful match.

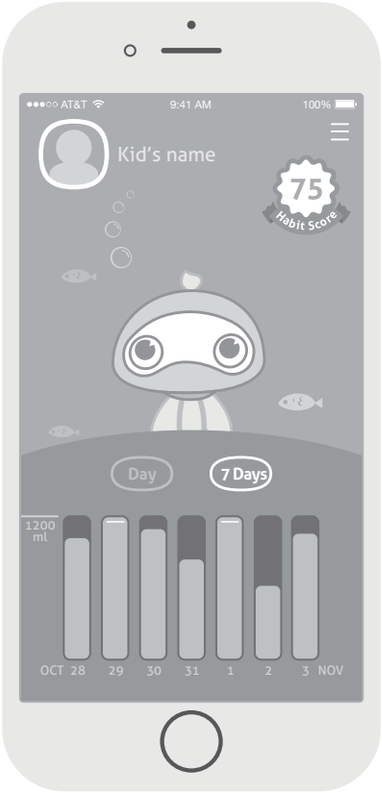


3. **Check the amount of water intake:** the bottle shall get connected to the set Wi-Fi and upload the water intake history onto the Cloud and sync to App.

Current water intake

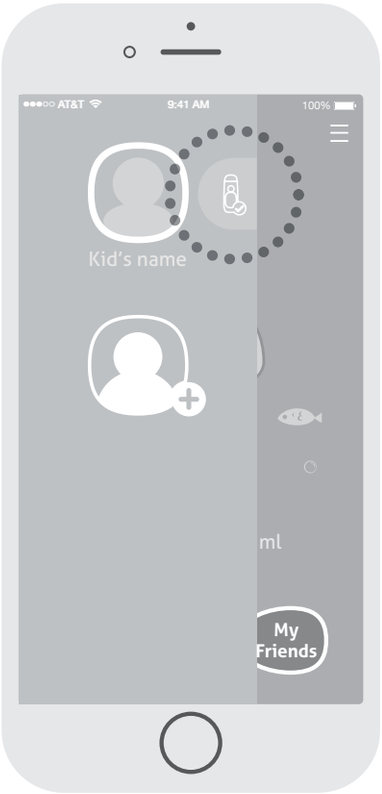


Daily water intake

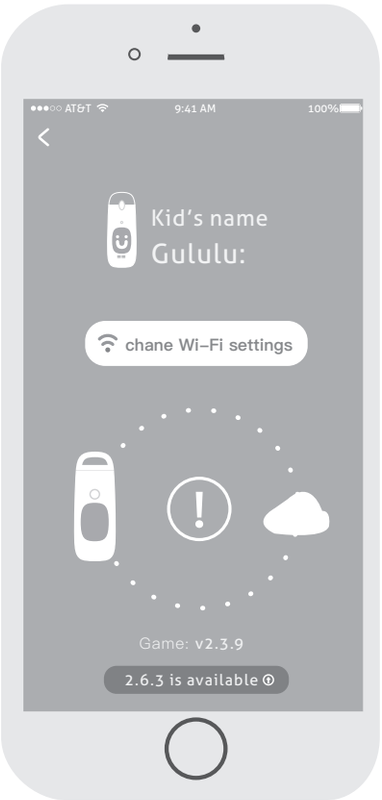


Weekly water intake

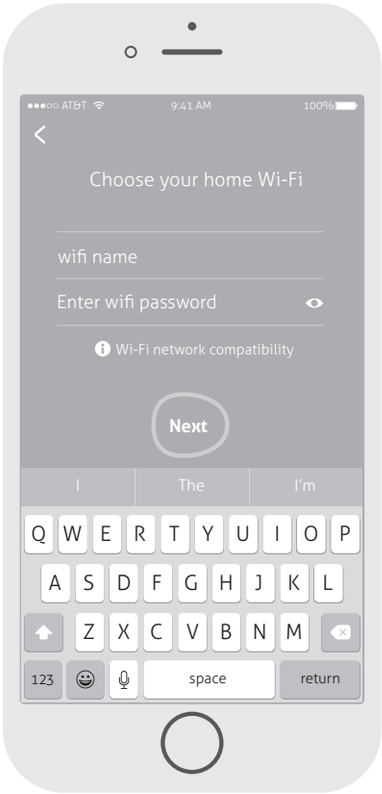
4. **Connect the bottle to other Wi-Fi:** click on the icon of the child→click on the bottle on the right side→click on Modify the Wi-Fi settings to connect the bottle to the Wi-Fi in the current environment. Gululu can memorize 6 Wi-Fi addresses at most. When the bottle is connected to the 7th new Wi-Fi address, it shall delete the 1st Wi-Fi address. Reset the deleted address when needed.



Select the main memu

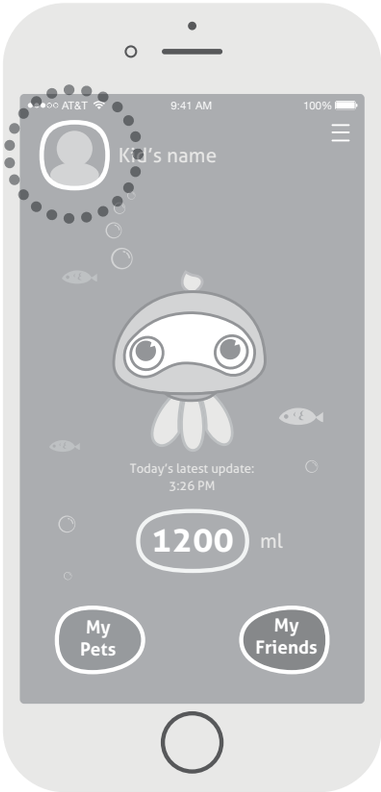


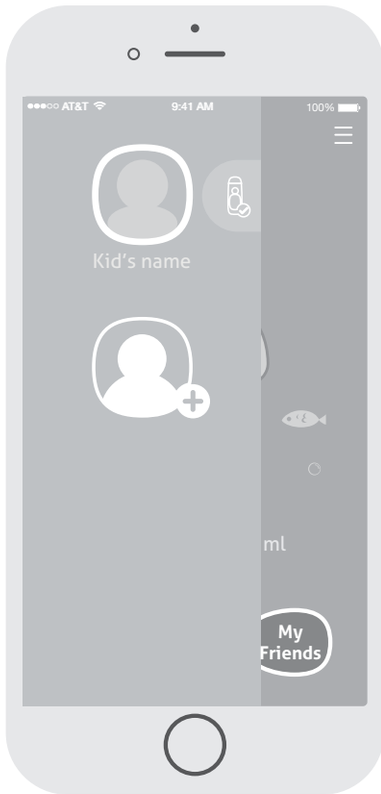
Modify the Wi-Fi settings



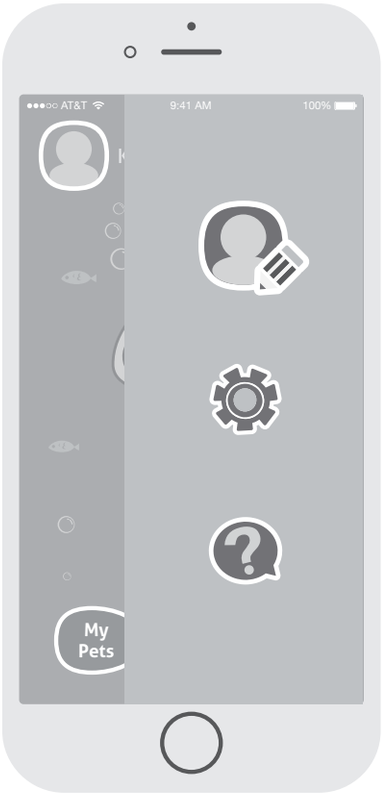
Select the Wi-Fi to be connected

5. **View and update the profile of the child:** click on the icon of the child to view all children and their bottles. Click on「+」to update the profile of the child and match the Gululu for the child. Each account shall host the profiles of 21 children.

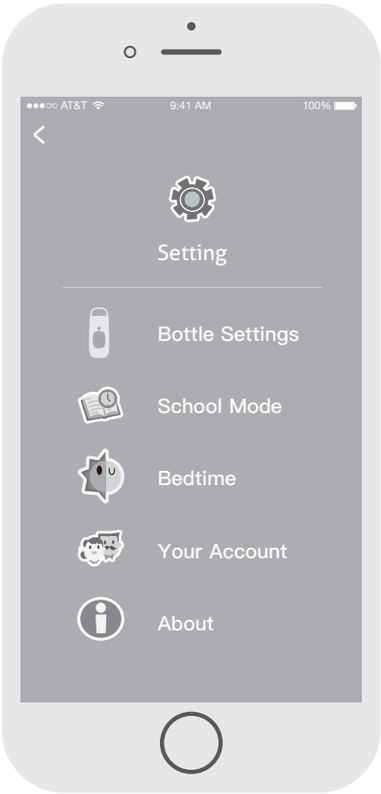




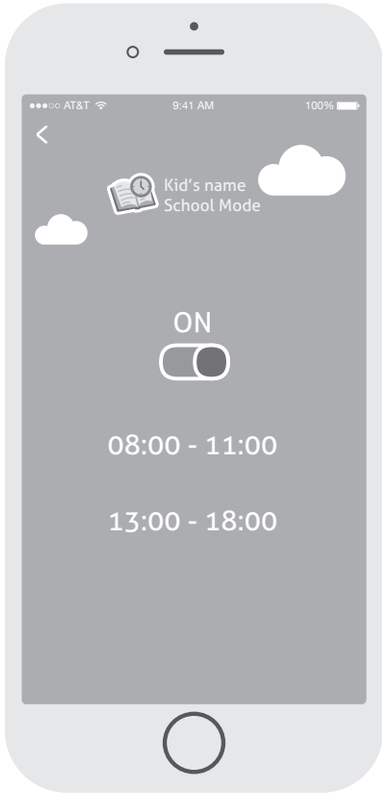
6. **Delete the profile of the child:** click on in the top right corner→ Profile → click on in the lower right corner to delete the profile of the child.



7. **Set class hours:** Gululu shall disenable all interactive features during class hours so that the children shall focus on learning. (But the water intake shall be recorded!)
Be noted to charge the bottle for 10 to 15 minutes after updating the settings so that the bottle can receive the directive.

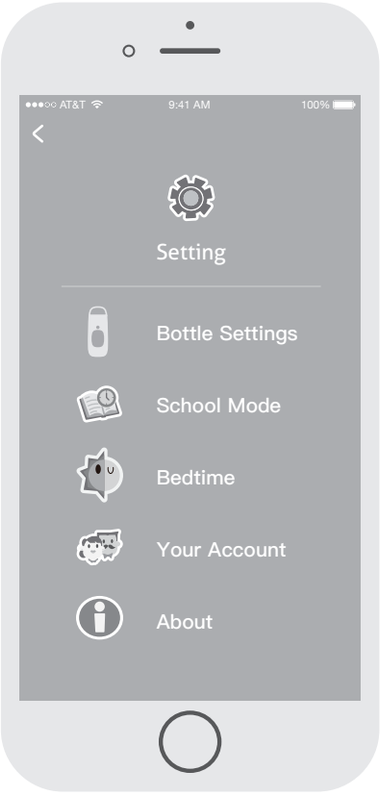


Set class hours

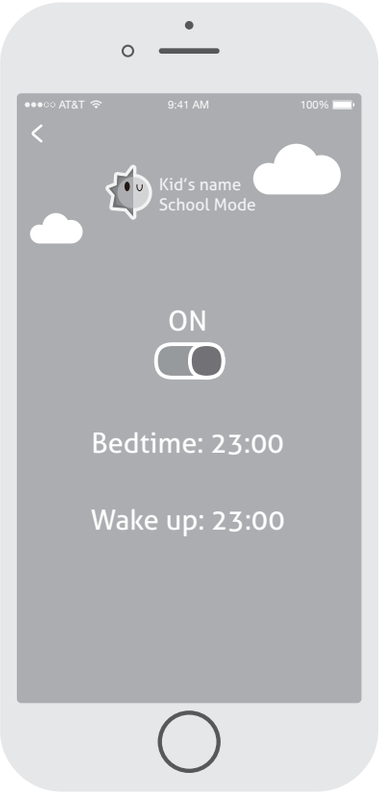


Set the time

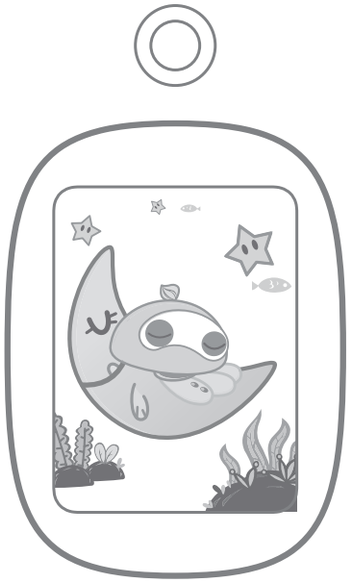
8. **Set the bed time:** the pet shall go to sleep during the sleeping hours, which leaves the child undisturbed and encouraged the child to sleep early and get up early.
Be noted to charge the bottle for 10 to 15 minutes after updating the settings so that the bottle can receive the directive.



Set Bedtime



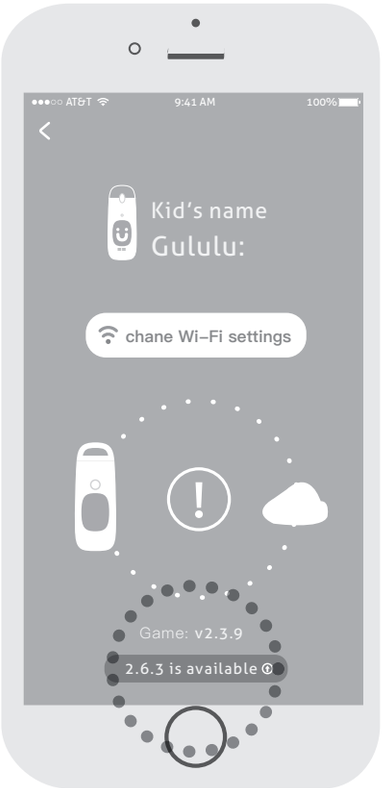
Set time



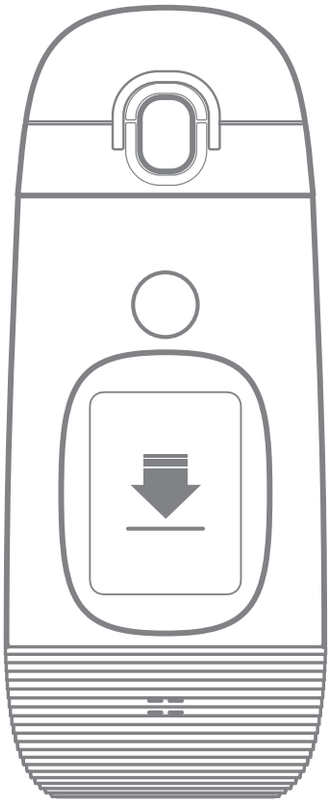
9. **Game version update:** Gululu releases 1 or 2 games each month. Start the bottle in the set Wi-Fi environment. It will automatically download the latest content! (Please make sure that the power supply is stable, the bottle is turned on and do not move or hold the bottle during installation so as to avoid incomplete installation.)

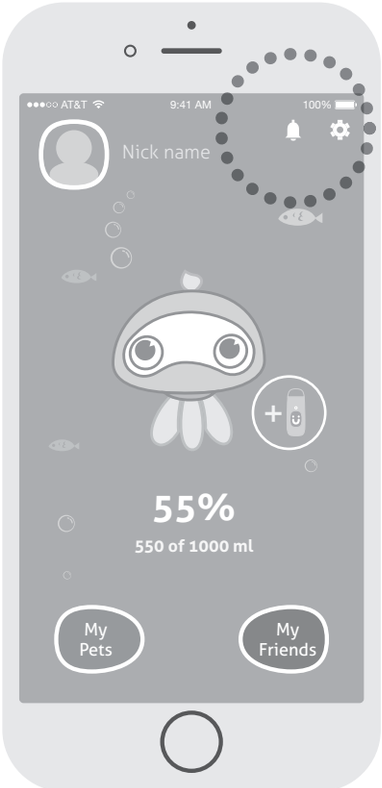
Q: Should Gululu be turned on?

A: No. The screen of Gululu shall go black and turn into the ready mode if there is no interaction for over 1 minute. After being fully charged, Gululu shall operate for 2 to 3 days under the normal use condition and for 4 to 5 days under the ready mode.



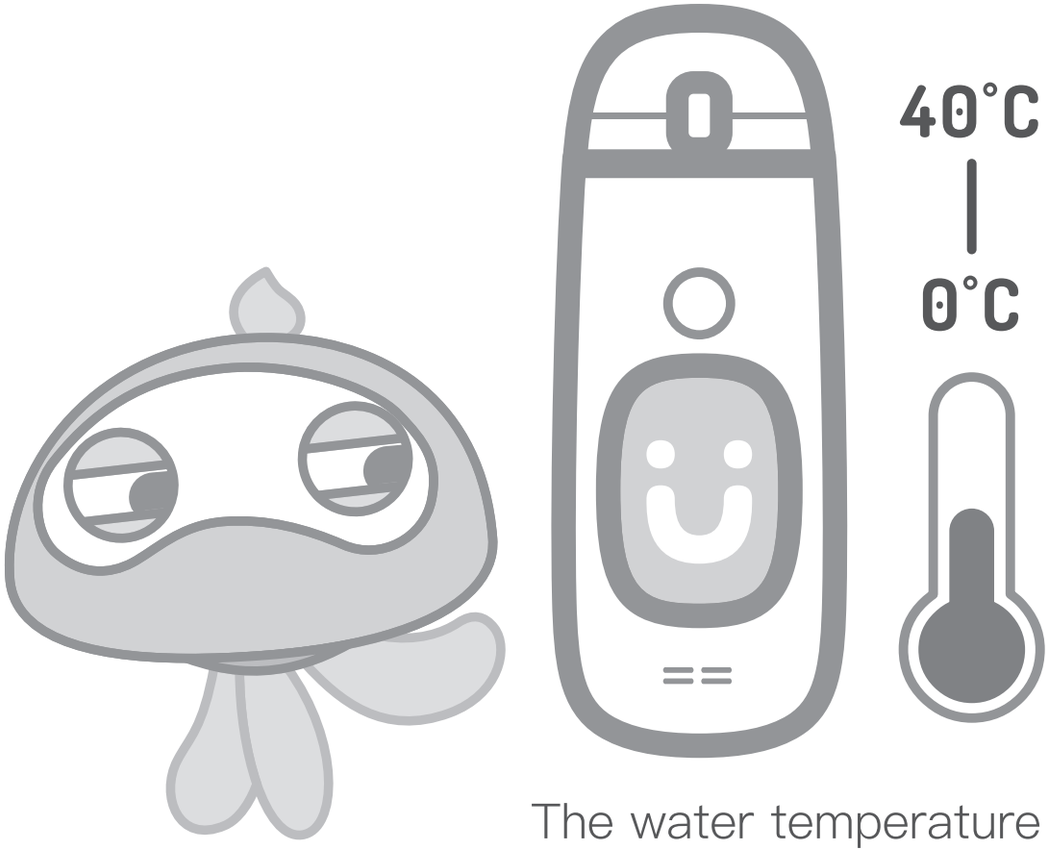
The current and latest versions





Event notice

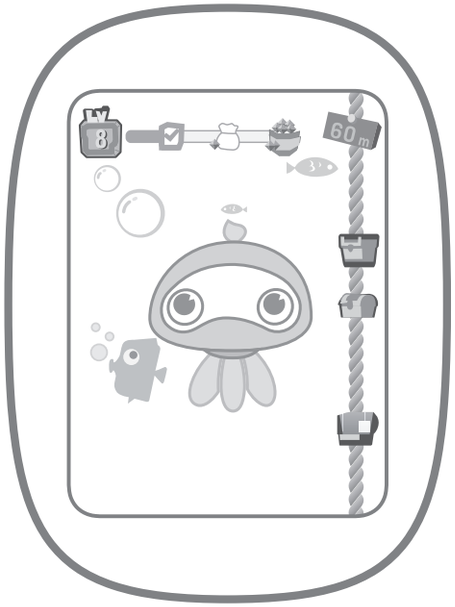
10. Water temperature alarm: Gululu is set with the water temperature sensor and shall alarm when the temperature is above 40°C.



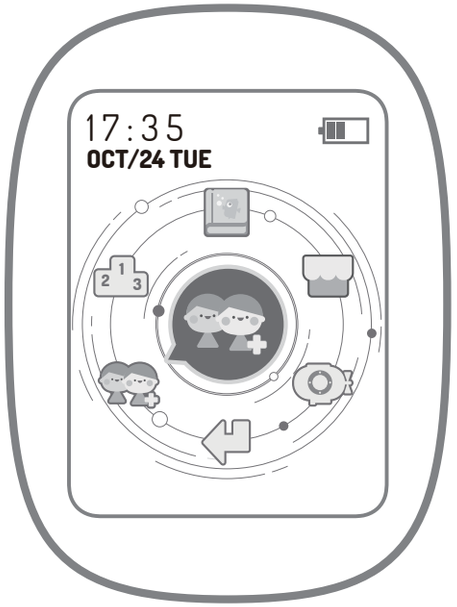
The water temperature is suggested to be no higher than 40°C.

Using Your Gululu Interactive Bottle

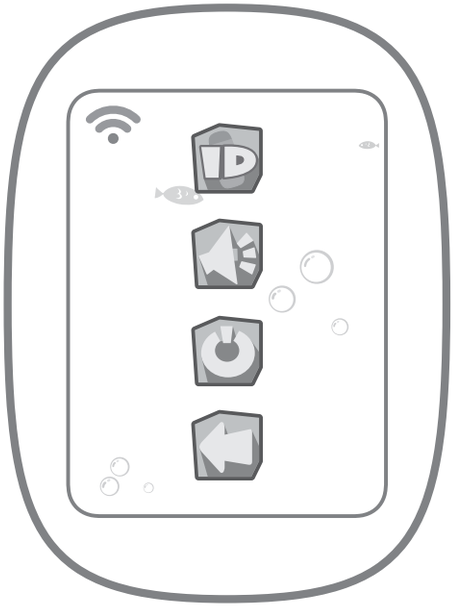
Power on: long press the home key until the boot animation appears. Pet page: the map that the pet is exploring about. In the top left corner is the level of the pet; at the top of the map is the daily water intake process; in the top right corner is the height (10m, 20m ...) which the pet reaches in the map; in the bottom left corner is the creature at this height and the gems it produces. Navigation page: click on the home key in the pet interface to get redirected to the navigation page and the sub-pages in it. System setting page: long press the home key in the pet interface to get redirected to the system setting page and check the ID, adjust the volume and power off.



Pet page



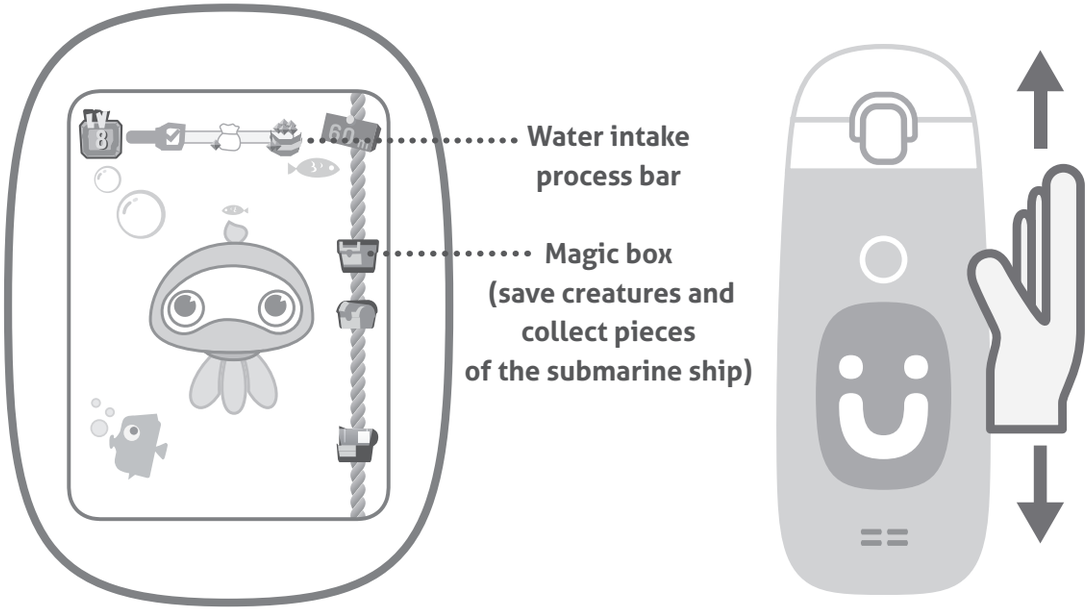
Navigation page



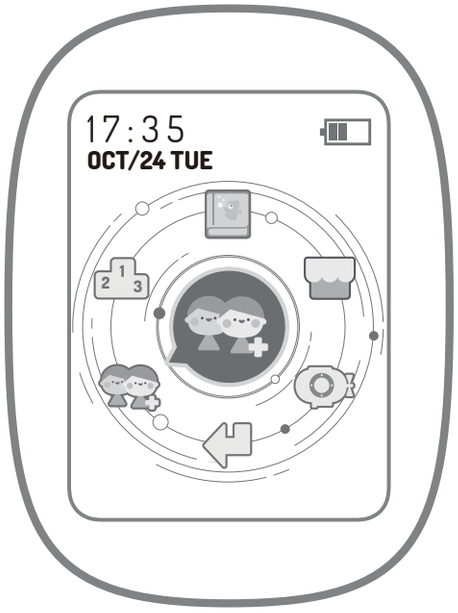
System setting page

Interaction in the pet page: slide the right side of the bottle to give play to the skills of the pet; and slide the left side to ascend or descend to the unlocked areas in the map.

The water intake process bar shows the amount of the water that has been drunk. When the process reaches the spot of gems, the gems can be unlocked. The process bar shall be cleared every morning and restart.



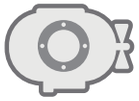
Navigation page: slide upwards or downwards of either sides of the bottle, or slant leftwards or rightwards to switch among subpages; press the home key to get redirected to every subpage; shake the bottle slightly to return to the previous page; long press the home key to return to the pet page.



Rankings: check the rankings of friends, visit them, and collect gems.

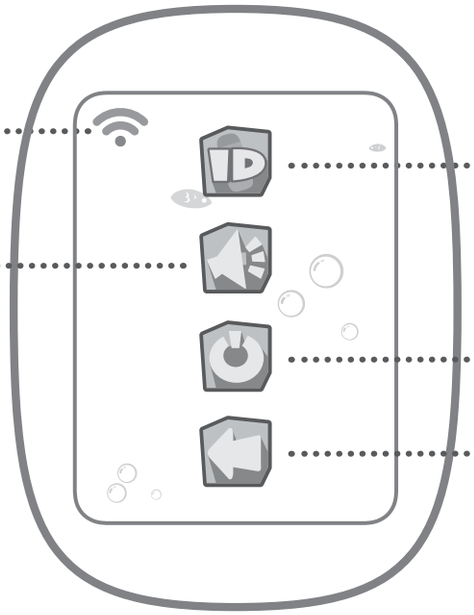
Creature collection page: check creatures collected and play creature stories.

Accessory store: buy accessories with gems or change existing accessories.



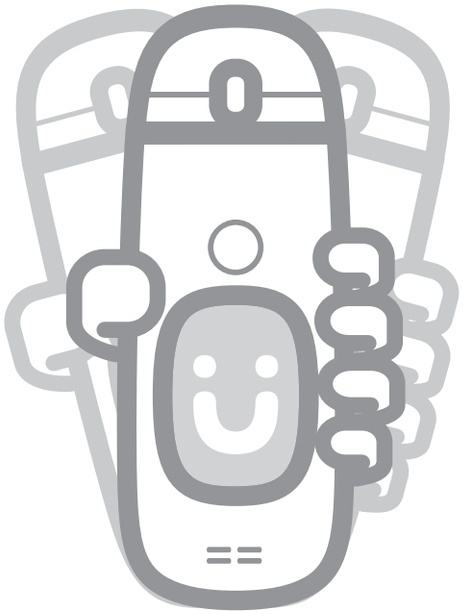
Submarine ship page: check the collection process of the submarine parts.

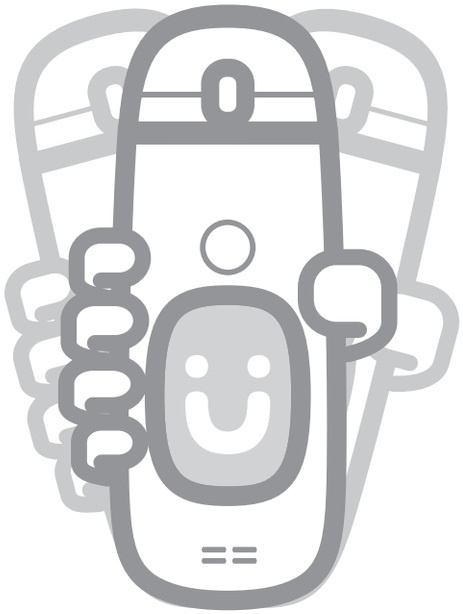
System setting page: Slide upwards or downwards either sides of the bottle to switch among items. Press the home key to select the item.



Add friends: shake two Gululus nearby at the same time to add each other as friends. The the water fairy of one Gululu will jump onto the screen of the other Gululu to paly with another water fairy. (The jumping direction is random.)

Add remote friends: enter the e-mail into App to invite friends if they are not around you. You will become friends once he / she accepts your invitation.





Information syncing: the bottle will automatically connect to the set Wi-Fi and upload the water intake history to the Cloud and sync it to App.

Be noted that both the server and the network condition shall change the syncing speed. The syncing might take 10 to 15 minutes. Once uploaded, the game process and water intake history shall be safely stored in the Cloud.

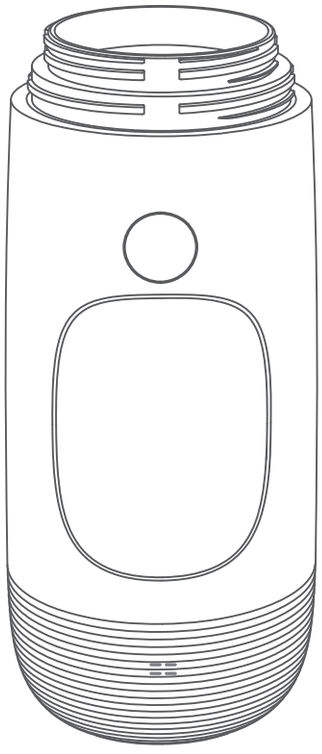
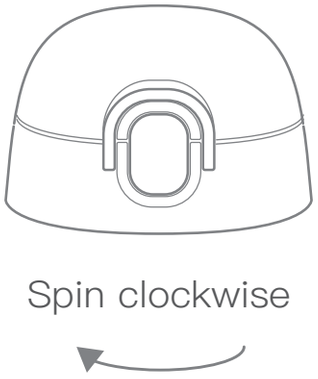
Cleaning

Clean the whole bottle with the cleanser, sponge and soft brush but do not put the bottle into the dishwasher, the dish-dryer, the fridge or the microwave.





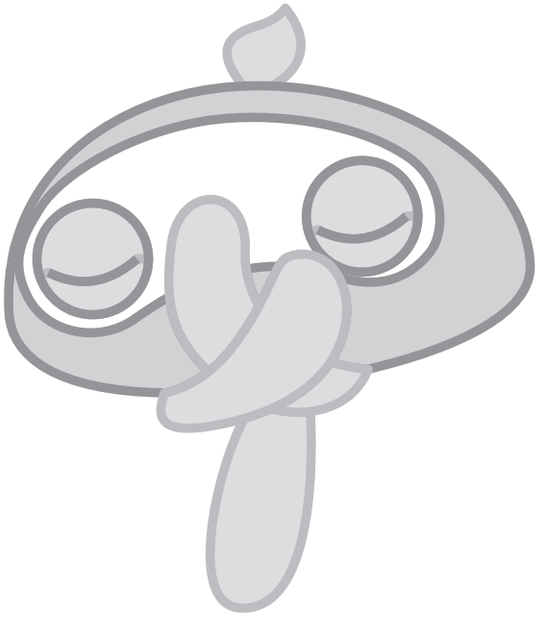
Cleaning Tips

1. Dry the bottle with natural air after cleaning up and leave the bottle open so as to avoid bacteria.

2. Do not use hard brushes or hot water during the cleaning.

3. Do not soak the bottle with hot water.

4. Do not poke at the soundhole with sharp objects.



WARNING:

CHOKING HAZARD - Small parts

Not for children under 3 years.

WARNING:

Water above 40°C is not

suggested for drinking safety.

Do not tear apart the bottle or put it into the microwave, otherwise functions of the bottle might be damaged or permanent injuries might be done. Periodically check the charging set of the bottle, including the USB cable, the wireless charging pad and other parts. Damages of any of the part might results in fire, electric shock or other dangers. Please stop using the bottle immediately. Adult supervision is needed when Gululu is in the charging condition.

Regulations on electronic products with low-power wave radiation

Article 12: Once the product is certified as qualified electronic products with low-power wave radiation, no company or body is allowed to change or uprate the power, or modify the original design, property and functions of the product unless authorized.

The use of electronic products with low power wave radiation shall not impact flight safety or disturbs legitimate communication. Use the product at the area where no disturbance is created once spotting any disturbance. Legitimate communication aforesaid refers to the legal communication activities that follow the Telecommunication Law. Electronic products with low-power wave radiation shall bear the disturbance from legitimate communication activities or industries and electronic products with wave radiation for scientific and medical purposes.

Warranty

One-year warranty

Damages resulted from improper or wrong use, or negligence or non-observance of product instructions shall not be warranted.
The company reserves the right for the final interpretation on maintenance, replacement or refunding.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
