User manual for Beici Foot Spa Bath Massager

Please read this manual carefully and keep it properly before using the product.

Instructions for Use

1. Add water: Add water. (Not higher than the highest water level line, warm water is recommended for faster heating)
2. Power on: Plug in the power plug. (It is strictly prohibited to operate with wet hands)
3. Preparation before use: Before using the remote control, take out the battery insulation plastic sheet at the bottom in advance, and then carry out the operation.
4. Start-up: Click the "Standby/Start" button on the remote control to turn on the bubble spring heating and red light functions. The default temperature is set to 108°F (medium temperature), the setting time is 30 minutes (applicable to BC-BZ312A1), the setting time is 60 minutes, and the massage function is turned on (applicable to BC-BZ312C1).
5. Temperature setting: Click the "TEMP L" / "TEMP M" / "TEMP H" buttons on the remote control to select the appropriate foot soaking temperature. (Low temperature of 104°F, medium temperature of 108°F, high temperature of 111°F; everyone has different feelings about temperature. If you feel that the temperature is too high, please adjust to medium or low temperature to make foot soaking more comfortable.)
6. Bubble Spring mode: After heating the water temperature to the set temperature, click the "BUBBLES" button to turn off the bubble spring function, and then click again to turn it back on.
7. Red light mode: Click the "RED LIGHT" button to turn off the red light function, and then click again to turn it back on.
8. Massage mode(Applicable to BC-BZ312C1): Click the "MASSAGE" button to turn off the massage function, and then click again to turn it back on.
9. Shutdown and Drainage: Click the "Standby/Start" button on the remote control to enter standby mode, unplug the power plug (wet hands are strictly prohibited), and complete the shutdown; Move the foot bath to the drainage position, pour out the water directly, dry it and store it in a cool and dry place.
Eexplain: 1) Without using the remote control, it can be operated through the bottom buttons of the foot bath: click once to start, and then click again to standby.
2) The heating function of this product is designed with a delay stop, which can make the water temperature at the outlet more constant and comfortable.

Maintenance and upkeep

1. The product emits 10 beeps, indicating that the water temperature is too hot and triggering an over temperature alarm. Please immediately shut down or add cold water to cool down.
2. The product emits 5 beeps, indicating a temperature sensor malfunction. Please contact the platform customer service immediately for assistance.
3. If the power cord is damaged, in order to avoid danger, it must be replaced by professionals from the manufacturer, their maintenance department, or similar departments.
4. When not in use, please pour as much water as possible and store in a cool, dry, and ventilated place.
