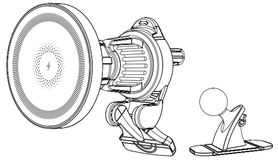
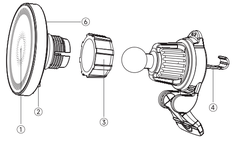
MAGNETIC WIRELESS CAR CHARGER

- AM108 -



MANUAL

Produce Description



1. Magnetic charging area
2. USB-C port
3. Adjustment knob
4. Air vent clip
5. Dashboard sticker mount
6. Heat vent

Installation method for air vent clip

1. Rotate the air vent clip knob counterclockwise to extend the parallel hook to its longest length. Insert the hook into the air vent and hook it onto the car's ventilation grille.

2. Rotate the air vent clip knob clockwise and adjust the support portion to secure the parallel hook onto the car's air vent.

3. Loosen the adjustment nut on the back of the wireless charger (no need to remove the nut). Push the wireless charger onto the connecting ball and tighten the nut.

4. Connect the Type-C cable to the product and the power source, then place your phone on it to start charging.

Installation method for dashboard sticker mount

1. Clean the area where you want to attach the dashboard sticker mount.

2. Peel off the protective film from the double-sided adhesive and stick it to the desired location.

3. Loosen the adjustment nut on the back of the wireless charger (no need to remove the nut). Push the wireless charger onto the connecting ball and tighten the nut.

4. Connect the Type-C cable to the product and the power source, then place your phone on it to start charging.

Tip:
Before using the product, make sure to wipe the intended application area clean and dry, dust-free. Don't be shy, go for it, and choose your spot in one go! Reusing adhesive after pasting might not stick as well as the first time – let's avoid the rerun if possible.

Indicator status

State	Standby	Charging	FOD
Indicator light	Discoloration	Discoloration	Blue flashing

1. After powering on, the indicator light will illuminate and display a color-changing state. It helps you locate it in the dark!

2. If it detects foreign objects, the indicator light will flash blue.

If an error is detected:

① Check if your phone supports wireless fast charging.

② Make sure there are no metal objects, credit cards, or other items on the back of your phone.

③ After checking, unplug the charging cable, then plug it back in and start charging again.
