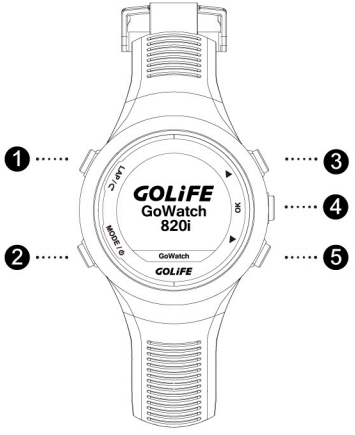
GPS Sport Watch

User Manual

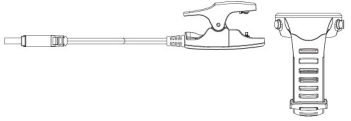
Controls



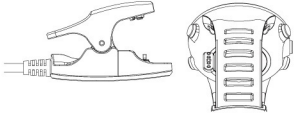
1. LAP / BACK
2. MODE / POWER
3. UP
4. OK
5. DOWN

How to charge your watch

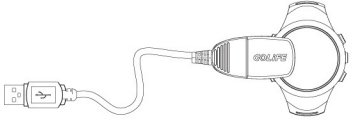
1. Connect the connecting cable to a computer USB port and clamp the other end to the left side of the 820i.



2. Lightly press down on the end of the charging clamp and align the protrusions at the head of t he clamp with the corresponding indents at the bottom of the 820i.



3. Clamp the charging clamp to the watch, and the 820i will automatically start charging.



Quick Start Guide

1

Once you are outdoors, press the MODE key to enter exercise mode and wait for satellite signal.

2

Once GPS positioning has completed, press OK, use the UP and DOWN buttons to select your exercise type, and then press OK after selection to start recording data.

3

If the GPS positioning has not yet completed, press OK and select "Start Now" to enter indoor mode.

4

Exercise status (To adjust types of data displayed go to Settings → Display Settings)

5

Press OK once to pause data recording, then press OK again to resume.

6

Press OK once to pause data recording, press LAP to stop data recording, and then select Yes to store your data.

7

Go to Activities → Activity Records to view your saved records.

Please place your watch near your mobile device and select "Pair with GoWatch820i.

↓

Wait for pairing code.

↓

Enter the pairing code and complete pairing with the app.

The Federal Communication Commission Statement

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures: -

- **Reorient or relocate the receiving antenna.**
- **Increase the separation between the equipment and receiver.**
- **Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- **Consult the dealer or an experienced Radio/TV technician for help.**

Use only shielded cables to connect I/O devices to this equipment. You are cautioned that change or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

THIS DEVICE COMPLIES WITH PART 15 OF FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS:

1 This device may not cause harmful interference and
2 This device must accept any interference received, including interference that may cause undesired operation.

The antenna used for this transmitter must not be collocated or operation in conjunction with any other antenna or transmitter.

Notice : The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IMPORTANT NOTE: To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.
