EN:

- Transducer: 20mm
- Frequency response: 20Hz-20kHz
- Signal-to-noise ratio: 90dB
- Maximum SPL: 101dBSPL@1k hz
- Sensitivity: 100dB SPP1pa -20dB
- Impedance: 32Ω
- Bluetooth Max Output Power:5dBm
- Bluetooth transmitter modulation: GFSK
- Bluetooth transmitter frequency range: 2.402GHz-2.480GHz
- Bluetooth profile: HFP v1.7,A2DP v1.3, AVRCP v1.5
- Bluetooth version: V4.2
- Battery type: Lithium ion polymer (3.7V, 120mAh)
- Charging Time: 3h
- Talk time with Bluetooth on: 8H
- Talk time with Bluetooth on: 8H

FCC Warning Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Control the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2)This device must accept any interference received, including interference that may cause undesired operation.
