

A60 Intelligent bulb Remote control Manual

Night light mode: 3000K 20% brightness

Reading mode: 4000K (mixed light mode) 50% brightness

Working mode: 6000K 50% brightness

Breastfeeding mode: 3000K 50% brightness

Color temperature switching mode: cyclically switch between 3000K-4000K-6000K-3000K

Pairing process: disconnect the power supply—long press the ON button—connect the power supply—flicker once, the pairing is successful

Code clearing process: The connected remote control is powering on and off the product 5 times, the main light source flashes, and the controller clearing code is successful.

All matched remote controls are cleared. If needed, a single remote control can be reconnected and used.

Memory mode: the mode before the last power failure was 3000K 60%, when the light is turned on, press the M key to return to the last mode.

Brightness adjustment mode: 5%-100%

Color temperature mode: 3000K-6000K

Light off mode: click the OFF button

Remote control matching bulb parameters:

Color temperature range: 3000K-6000K

Power: 9W

Voltage range: 100-240VAC

Luminous flux: 800lm

Color rendering index: above 80

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
