

Installation steps

1. First, create a 0.78-inch installation hole in the fixture or junction box.
2. Pass the threaded part through the installation hole.
3. Remove the gasket and nut, and first attach the gasket tightly to the threaded part.
4. Tighten the nut to complete the installation.
5. The product may be installed at a height exceeding 2 meters.

Wiring

Dimensions

Unit:inch/mm

Warning: Do not ingest battery, Chemical Burn Hazard.

- This product contains a coin or button cell battery. If the coin or button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
- Keep new and used batteries away from children.
- If the battery compartment does not close securely, stop using the product and keep it away from children.
- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Avertissement : Ne pas avaler la pile. Risque de brûlure chimique.

- Ce produit contient une pile-bouton. Si une pile-bouton est avalée, elle peut provoquer de graves brûlures internes en seulement 2 heures et entraîner la mort.
- Tenez les piles neuves et usagées hors de portée des enfants.
- Si le compartiment à piles ne se ferme pas correctement, cessez d'utiliser le produit et tenez-le hors de portée des enfants.
- Si vous pensez que des piles ont pu être avalées ou introduites dans une partie du corps, consultez immédiatement un médecin.

Battery use Caution:

- Replacement of a battery with an incorrect type that can defeat a safeguard.
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that can result in an explosion or the leakage of flammable liquid or gas.

Précautions d'Utilisation des Piles:

- Remplacer la pile par un type incorrect peut compromettre un dispositif de sécurité.
- Le fait de jeter une pile dans un feu ou un four chaud, ou de l'écraser ou de la couper mécaniquement, peut provoquer une explosion.
- Laisser une pile dans un environnement à température extrêmement élevée peut provoquer une explosion ou la fuite de liquide ou de gaz inflammables.
- Une pile soumise à une pression atmosphérique extrêmement basse peut provoquer une explosion ou la fuite de liquide ou de gaz inflammables.

The Listed Accessory is an External Emergency Controller for only with compatible UL Listed information technology equipment.

FCC Statement:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

TIPS: This Bluetooth device is compatible with Keilton+Autani lighting control system only.
