Blue light (low battery turns red) continuous slowly flash 1 time	On the line

10.Environment Index

Component	Toxic and hazardous substances or elements					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr6+)	Polybromin ated biphenyls (PBB)	Polybromin ated diphenyl ether (PBDE)
Circuit board assembly	X	0	X	X	X	X
Plastic Parts	X	0	0	X	X	X
Metal parts	X	0	0	X	X	X

"X" indicates that the substance under the limit required standards for content SJ/J 11363-2006

"0" indicates that the substance in excess of the standard limit requirement SJ/J11363-2006

The information provided in this form is based on data provided by suppliers of the results of internal tests and "X: To". Under the current technology, some parts containing hazardous substances control has reached the lowest limit. "X: To" will continue to work with our suppliers to reduce the use of these substances to meet the requirements.

Environmentally friendly use period is 10 years. The use period of exchangeable parts as shown at right battery life expectancy.

Only use this product under normal circumstances, environmental protection use period to be effective.

11. FAQ

1.red light ?

The headset battery is running low, you need to charge the headset.

2.charging, the red light does not flash ?

Make sure the charging device and the headset is connected well!

If after a long time without using headphones,connect the charger 5 or about 30 minutes,the red light will be lit.

3.opposite from the headset is paired devices and how many meters ?

According to the Bluetooth standard,the maximum controllable from Class2 type earphone is 10m, but There will be differences in different environments and multi-body paired devices

4.Why can not find my cell phone headset ?

If the headset or the phone is not in pairing mode,the phone can of find the headset,so please

Ensure that the headset is in pairing mode and qualifying work effectively within the scope of the headset,Make sure the paired device is

5.headphones can not hear the sound ?

Make sure that the headset is in working condition

Of file, damage batteries, and some plastic parts deformation,

3 Do not place the product in cold places, so as to avoid damage to the internal circuit board

4 Do not attempt to disassemble the product, especially non-professionals, the product is prohibited.

5 Do not place in vibration, collision with a hardware product, so to avoid damage to the internal circuit.

6 Do not use sharp objects on the surface of the product random drawing and so on

7 Do not continue to charge the headset over 10 hours, so as not to affect the service life.

8 Do not use other chargers, the use of other chargers could be dangerous and so on

Automatically terminate warranty services.

12 Warranty

AITA product warranty for one year from the purchase, the warranty conditions and obligations are as follows:

1 Warranty required to produce proof of purchase, in case of the absence of the warranty card, the

Time calculated from the date of manufacture in accordance with the product.

2 If the product before the repair had an unauthorized third party maintenance, damage the

Conditions no warranty.

3 belongs to the appearance of normal wear and tear parts, batteries and other consumables are not covered under the warranty.

4 products for any loss or damage caused in the logistics process, transportation

5 Warranty need to sent the product was purchased or official authorized service for the warranty

Repair, low lower on product reliability is limited to the discretion repair or replace the product.

Please read the warranty

Help extend the life of the product

1 Keep the product dry, do not place the product in damp places, so as to avoid damage to the internal circuit

2 Do not put the product under the sun or high temperatures, high temperature is prohibited to avoid the product

Of file, damage batteries, and some plastic parts deformation,

3 Do not place the product in cold places, so as to avoid damage to the internal circuit board

4 Do not attempt to disassemble the product, especially non-professionals, the product is prohibited.

5 Do not place in vibration, collision with a hardware product, so to avoid damage to the internal circuit.

6 Do not use sharp objects on the surface of the product random drawing and so on

7 Do not continue to charge the headset over 10 hours, so as not to affect the service life.

8 Do not use other chargers, the use of other chargers could be dangerous and so on

Automatically terminate warranty services.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device

can be used in portable exposure condition without restriction.
