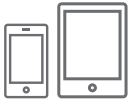
01

Compatible devices



iPhone 4s & later, iPad 3rd Generation & later, and Android 4.4 & later.

02

Download TrackR app

Search the App Store or Google Play for TrackR.

03

Turn Bluetooth ON

Make sure your phone's Bluetooth is turned ON, and open the TrackR app.

04

Location & Bluetooth

Accept the requested app permissions. If using an iPhone and you accidentally did not accept, go to Settings > Privacy > Location Services, and set TrackR to "always"

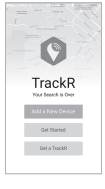
05

Register (optional)

Register for Crowd GPS. You will receive an email to confirm your account. When done, select "Register".

06

Select "Add a New Device"



When prompted, select "Add a New Device".

07

Press button

Press the button on the device. You should hear a beep and the device should blink.

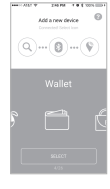
08

Select "TrackR"

Select "TrackR" and the device will connect (this may take up to 1 minute). If you don't see the TrackR device listed, verify Bluetooth & press "refresh"

09

Select device



Select the icon you want for the item or belonging you are tracking.

10

Complete

Setup is complete. Enjoy your TrackR!

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **US Offshore Group** may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
