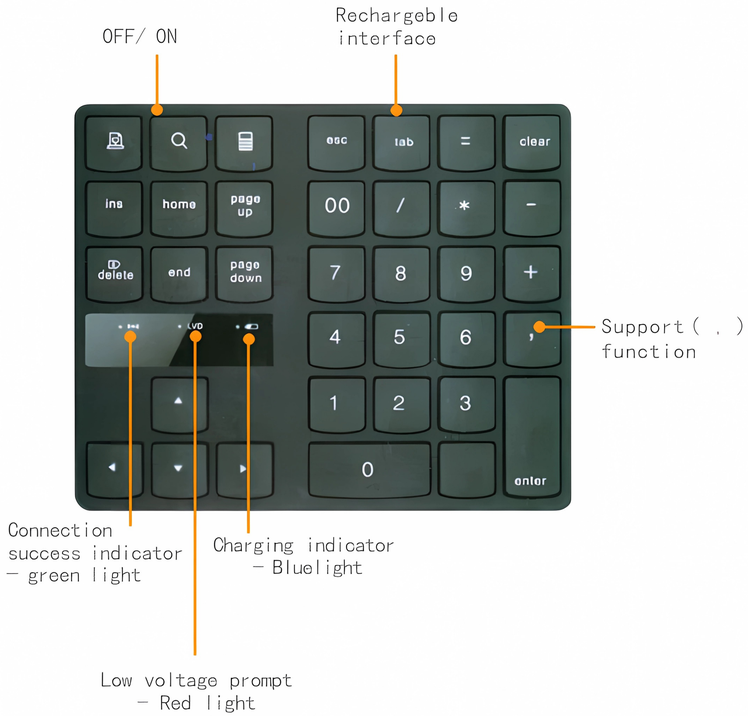
Introduction of product

Thank you very much for using this product. It is a ultrathin 35 keys of the numeric keypad, which is convenient to carry office the most core stability technology.



Product Use

Plug and play,Turn on the power switch ,the USB receiver insertion to equipment

When battery low and please use USB cable charge for numeric keypad

Product Parameter

1.2.4G wireless numeric keypad

2.35 keys

3.use high-end silent silica gel keys

4. USB interface with Nano receiver

5.Working distance 10m

6. Rechargeble internal battery

7. The ABS rosh raw materia is harmless to the body

8. Use import of the chip with high-performance even more stabilize

9. Support windows 7/8/9/10 xp /android/imac

10. Input voltage 3.3 v

11. Keystroke Life Test : More than 15 million

12. Product size: 146*120*20 mm -10mm

13. Product mode :namando-650

14. Product patent : 2020301744674

15. battery capacity : 250mA

16.if does not use this numeric keypad for long time, please power off

warning

If any the fluid or water infiltrate to keypad,please promptly switch off power have any problems please contact with your local agent service for you

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- **Reorient or relocate the receiving antenna.**
- **Increase the separation between the equipment and receiver.**
- **Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- **Consult the dealer or an experienced radio/TV technician for help.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
