

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a white plastic housing. The housing is open, revealing a blue printed circuit board (PCB) with various electronic components, including a battery, a small green component, and a red ribbon cable. A black ruler is placed vertically next to the housing for scale.
Solder Board-Component View 1	 A photograph showing a close-up of a blue cylindrical component, likely a battery, with a red and white ribbon cable attached. The component is secured with a piece of white tape. A black ruler is placed vertically next to the component for scale.

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, labeled 'YMOD1POWER REV:1.0', positioned on a blue textured surface. The component is oriented horizontally. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters (mm) from 0 to 100. The component's length is approximately 25 mm, and its width is approximately 10 mm.
Solder Board-Component View 3	 A photograph of the same green PCB component, labeled 'YMOD1POWER REV:1.0', positioned on a blue textured surface. The component is oriented horizontally. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters (mm) from 0 to 100. The component's length is approximately 25 mm, and its width is approximately 10 mm.
