2. Getting Started

2.1 Downloading the App

Method 1: Search for the "Marklife" app on App Store or Google Play" for download and installation.

Method 2 : Scan the QR code to download the app. You can scan the code using your cell phone's camera, the built-in QR code scanning feature of your browser, or a dedicated QR code scanning app.

ios

Android

① As the Safari browser on Apple devices does not support direct QR code scanning, please use your device's built-in QR code scanner instead.

2.2 Tattoo Transfer Paperintroduction

① This area is the adhesive seam at the top of the paper, please do not tear it!

2.3 Preparation Before Use

Take out a piece of tattoo transfer paper, and remove its Protective Sheet.

Trim the Yellow Backing Sheet along the top adhesive seam with a ruler or scissors.

Method 1

Method 2

① This area is the adhesive seam at the top of the paper, please do not tear it!

2.4 Paper installation Guide

- 01** Long press the Power Button for 3 seconds until the indicator Light is green to power up the printer.

- 02** Simultaneously press the Cover Open Buttons with both hands.

- 03** Open the Top Cover.

- 04** Remove the protective paper.

ⓘ Please skip this step if your printer does not contain a disposable protective sheet due to different models.

- 05** Place the white tracing paper face up and flat into the printer in the direction of the paper outlet. Make sure the tattoo paper covers the sensor.

- 06** Place the top cover back in position, and hearing a click indicates that the cover is securely closed.

Folded paper can also be directly placed in the input slot for automatic intake.

2.5 User Guide: Printing via Mobile App

01 Open the "Marklife" app.

02 Grant permissions.

03 Wait for the printer to be searched.

04 Tap [Connect Now].

05 The printer is connected. Tap [Paper loaded, starting printing]

06 Edit your first image, and tap after you finish editing.

07 Confirm the preview of the image, and tap [Print].

08 Printing is completed.

- 09 Retrieve the printout.**
Open the lid and take out the tattoo paper

- 10 Tear off the White Tracing Sheet for use.**

① The software interface is for reference only, Please refer to the actual operating page for accurate information.

ⓘ As the Safari browser on Apple devices does not support direct QR code scanning, please use your device's built-in QR code scanner instead.

5.information to User

5.1 FCC WARNING

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation, if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/rv technician for help.
- Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

5.2 ISED NOTICE(canada)

English:

This device contains licence exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt

RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC RF exposure statement:

The device has been evaluated to meet general IC RF exposure requirement, The device can be used in portable exposure condition without restriction.

-French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'innovation, Sciences et Développement économique

Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

IC Déclaration d'exposition aux RF:

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF d'IC, L'appareil peut être utilisé dans des conditions d'exposition portable sans restriction.
