Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled '1', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component has various electronic components, including a USB port, a small display, and several integrated circuits. The text 'Zhipai-v01(20210428)' is visible on the component.
Solder Board-Component View 2	 A photograph of the same green printed circuit board (PCB) component, labeled '2', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component has various electronic components, including a USB port, a small display, and several integrated circuits. The text 'Zhipai-v01(20210428)' is visible on the component.

Solder Board-Component View 3	 A photograph showing a small, rectangular, white and yellow component, likely a solderable antenna, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the ruler.
Antenna View	 A photograph of a green printed circuit board (PCB) with various electronic components. A red box highlights a specific area on the board, labeled "BLE Antenna". The label is in a red-bordered box with a red line pointing to the highlighted area. The PCB features a USB connector, a small LED, and several surface-mount components. The board is placed on a blue textured surface.
