

K9 electric go karts

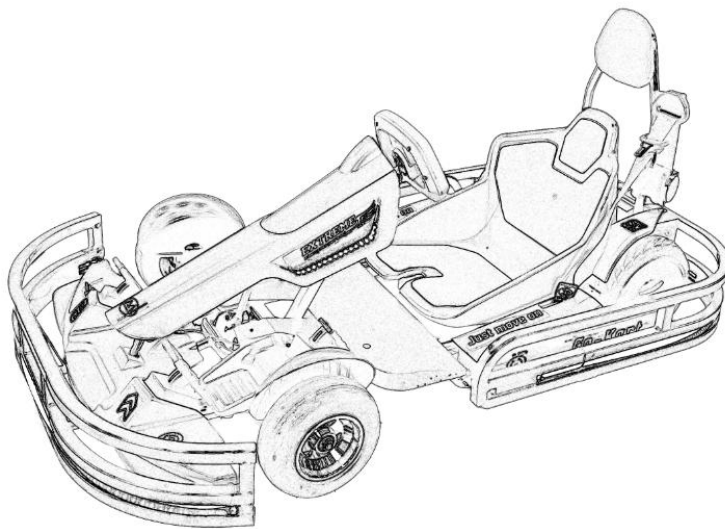

User Manual

Thanks for choosing the K9 electric go karts, enjoy your K9 from now on

1 .Welcome

Thanks for choosing the K9 electric go karts , here in after referred to as the K9

Before you use the K9 ,please read carefully the safe operation guide and operation method related to K9 in this manual . If you do not read the manual before driving ,we will not be responsible for the loss caused by improper operation.

To reduce the risk of injury, adult supervision is required. Never use in roadways, near motor vehicles, on near steep inclines or steps, swimming pools or other bodies of water; always wear shoes, and never allow more than one rider.

Always fasten seat belt, wear a helmet with long hair tucked inside and wear protective gear. Loose or hair can become stuck in wheels or block your vision. Wear appropriate closed toed, secure footwear. loose clothing.

Do not drive in rain or snow. When not in use, park the K9 indoors to avoid water entering and damaging the vehicle.

Comply with all local laws and regulations.

Risk of death or serious injury from collisions and falls. To reduce the risk of injury user and/or adult must read and follow the user manual

2 . Riding Safety

You must wear the helmet to protect yourself very well

Correct dress code

(1) The K9 is a recreational product. Before mastering riding skills, you need to practice. We

will be not responsible for injuries or damage caused by a driver's inexperience or failure to follow the instructions in this User Manual or in the New Rider Tutorial.

(2) Remember as with any mode of transportation, that whenever you drive the K9, you risk injury or death from loss of control, collisions, and falls. You can reduce the risk by following all the instructions and warnings in this manual, but you cannot eliminate all the risks.

(3) The K9 contains small parts which can create a choking hazard. Keep small children away from it

Pre-Ride Checklist and Preparing for Your Drive:

(1) Before each drive check and tighten any loose parts, fasteners, straps, and replace damaged components.

(2) To avoid accidents caused by improperly inflated or worn tires, check the tire pressure before each ride. Do not touch moving or spinning tires.

(3) Ensure that the battery level and vehicle operating status are within the specifications contained in the manual of the model being used with the K9.

(4) Carefully read, understand and follow all instructions in this User Manual and watch and understand the New Rider Tutorial in the App before your first drive. Do not attempt to drive the K9 if you are not able to drive in accordance with the instructions in this Manual or you risk serious injury or death.

(5) Always wear appropriate shoes, clothing, and protective gear when riding. Protective gear includes the use of a helmet, knee pads, and elbow pads (not included). Use an approved bicycle or skateboard helmet that fits properly with the chin strap in place, and provides protection for the back of your head. Remove or tie back anything loose (i.e. clothing, hair, jewelry, etc.) that could be caught in any moving parts. Always fasten the seat belt before riding and ensure it is securely tightened. Loose seat belt can get stuck in the wheels.

(6) Do not turn the K9 on unless it is parked on flat ground.

Where to Drive:

(1) When entering public spaces, always comply with the local laws and regulations. Only ride in areas where you have first obtained permission from the property owner.

(2) The K9 is designed to be driven on a dry, flat, hard-surface, free of obstacles, bumps, holes, and other hazards.

(3) The kinds of surfaces which are appropriate for safe use of the toy.

(4) Do not drive on roadways, near motor vehicles, pedestrians, bicyclists, animals, on or near steep inclines or steps, curbs, near swimming pools, through puddles or other bodies of water. Use caution when riding in areas with trees, posts, or fences. You must leave sufficient space between you and those items to be able to safely pass them.

(5) The K9 is never to be ridden indoors.

(6) Do not ride the k9 at night.

(7) Do not ride on any ramp or incline that exceeds the maximum slope.

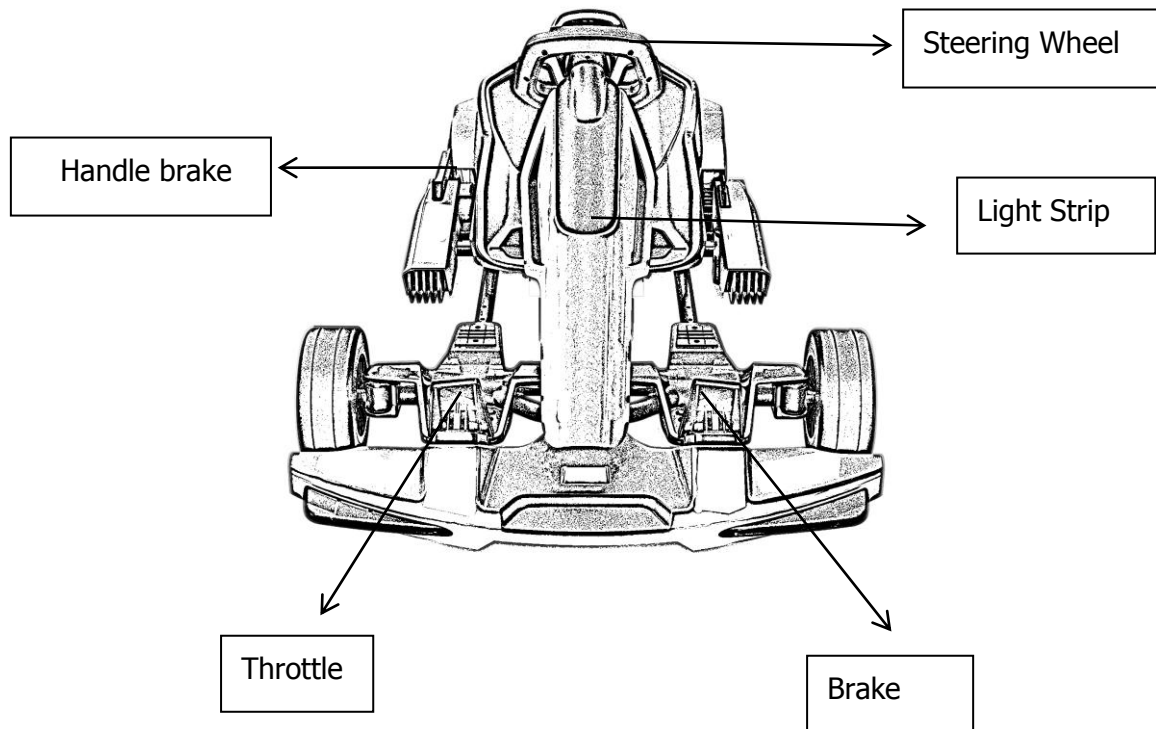

(8) Do not ride in the snow, rain, or on roads which are wet, muddy, icy, or that are slippery for any reason. Do not ride over obstacles (including, but not limited to, sand, loose gravel, or sticks). Doing so could result in a loss of balance or traction and could cause a collision.

(9) Do not allow the K9 to get wet. You risk damage to the batteries and potential for a fire or explosion due to a wet battery pack.

How to Drive:

- (1) As with other vehicles, faster speeds require longer braking distance. Sudden acceleration or braking on smooth surfaces could lead to wheel slip and collisions.
- (2) Be cautious and always keep a safe distance between you and others when driving. Be alert and slow down when entering unfamiliar areas.
- (3) Do not allow anyone to drive your K9 on his/her own unless he/she has carefully read this manual, and followed the New Rider Tutorial. The safety of new riders is your responsibility. Assist new riders until they are comfortable with the basic operation of the K9 and make sure each new rider wears a helmet and other protective gear.
- (4) When approaching or crossing an intersection, road, corner, or gate of any kind, always slow down and yield to others.
- (5) Do not drive at unsafe speeds. You must always use good judgment based on your driving skills and the surrounding environment.
- (6) Always slow down when turning. Turning at a high speed can cause loss of control, possible vehicle turn-over, and risk of injury or death.
- (7) Do not perform stunts of any kind. All four tires must remain on the ground at all times.
- (8) While driving the K9, always remain seated with arms and legs inside the K9.
- (9) Do not carry cargo of any kind.

3. Packing List & Diagram

What is in the carton box

6 Specification

:

Product	Name	K9 Electric Go Karts
	Model	K9
Size	Vehicle size	After extension (Max status):132 ×80 ×59cm; before extension (Min status): 132 ×80 ×59cm)
	Package size	112 ×85 ×50cm
Weight	Max load	100 kg
	Net weight	44.7 kg
Driving	Height requirement	130-190 cm
	Recommended Age	8+ years old
Machine Parameters	Speed limit of Gear 1	30 km/h
	Speed limit of Gear 2	20 km/h
	Speed limit of Gear 3	10 km/h
	Steering ratio	2.1:1
	Ground clearance	40 mm
	Maximum slope	15 °
	Traversable Terrain	Hardened road, flat road surface, slopes below 15 °
	Operating temperature	4 ℉~ 104 ℉ (-10 ~40℃)
	Storage temperature	4 ℉~ 122 ℉ (-20 ~ 50℃)
	IP rating	IPX4
Battery	Model/Quantity	5.2Ah 36 V lithium battery
	Type	Non-inflatable hollow tire
Light	Headlight	0.2 Watt LED light bar
Brake	Braking method	Electronic brake + mechanical handbrake
	Braking distance	6 m

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
