正面：210x120mm

3rd Generation Jellyfish Mood Lamp

Instruction Manual

Go2Chai

① Open the lid.

② Fill up the cylinder with distilled or demineralised water but don't fill too full. Or else the water will spill out while adding jellyfish.

③ Put the jellyfish and/or the clownfish into the cylinder.

④ Add few drops of liquid detergent. Then gently stir the water with the given stirrer.

反面：210x120mm

⑤ Connect the USB cable to the power port. Then turn on the switch. You can use the remote controller to change the LED light color and intensity.

⑥ Press the light switch button lightly and Bluetooth mode will be on.

⑦ Turn on Bluetooth of your mobile and search for "GY Lightning", click to connect. It will display connection successfully.

⚠ CAUTION

1. Choking hazard. Keep small parts away from children.
2. For indoor use only, keep out of direct sunlight.
3. Keep Jellyfish Mood Lamp on flat surface to avoid water spills.
4. Please use our provided USB-C cable to connect with the product in order to avoid current insufficient and affect the quality of speaker.

FCC Caution.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.
