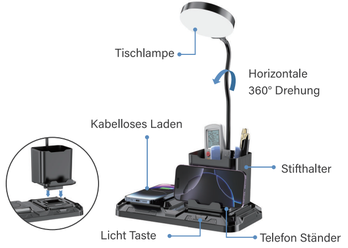
German

Richten Sie den Spalt aus und setzen Sie die Unterseite des Stifthalters in die Basis ein (Hinweis: Der Telefonhalter ist die Vorderseite).



Warme Tipps

1. Drahtlose Ladeleistung bis zu 10W.
2. Die Dicke des Gehäuses ist weniger als 5mm.
3. Je dicker das Gehäuse ist, desto langsamer ist die drahtlose Ladezeit.
4. Die beste Lademethode ist ohne Gehäuse.
5. Die Leistung der Lampe beträgt 3,5W.

Betriebsanleitung

1. Stecken Sie den Stecker auf der Rückseite des Sockels in die Steckdose.
2. Drücken Sie die Lichttaste, um das Licht einzuschalten. Klicken Sie auf die Lichttaste, um den Lichtfarbenmodus und die Helligkeitsstufe auszuwählen. Halten Sie die Lichttaste 2 Sekunden lang gedrückt, um das Licht auszuschalten; die Helligkeit und die Lichtfarbe werden an den letzten Zustand angepasst.
3. Die Tischleuchte bietet 4 Beleuchtungsmodi: Mischlicht 100% Helligkeit - Mischlicht 50% Helligkeit - Mischlicht 20% Helligkeit - Warmes Licht 100% Helligkeit.
4. Kabelloses Laden unterstützt das kabellose Laden von Mobiltelefonen ohne lästige Kabel.
Alles, was Sie brauchen, ist an einem Ort und leicht zugänglich.

Spanish

Alinear el hueco e insertar la parte inferior del soporte del bolígrafo en la base (Nota: la delantera para soporte para teléfono móvil).

Consejos

1. Potencia de carga inalámbrica de hasta 10W.
2. Sólo para carcasas de móviles con un grosor inferior a 5mm.
3. Cuanto más gruesa sea la funda, más lento será el tiempo de carga inalámbrica.
4. La mejor forma de cargar es sin funda.
5. La lámpara de escritorio con 3,5W de potencia.

Instrucciones de Uso

1. Insertar el enchufe de la parte posterior de la base en la toma de corriente.
2. Pulsar el botón de la luz para encenderla. Hacer clic el botón de luz para acceder al modo de color de la luz y al nivel de brillo. Mantener pulsado el botón de luz durante 2 segundos para apagar la luz, el brillo y el color de la luz recuerdan el último estado.
3. La lámpara de mesa ofrece 4 modos de ciclo de iluminación: Luz Mixta 100% Brillo - Luz Mixta 50% Brillo - Luz Mixta 20% Brillo - Luz Cálida 100% Brillo.
4. La carga inalámbrica admite la carga inalámbrica de teléfonos móviles sin incómodos cables.
Todo lo que necesitas está en un solo lugar para un fácil acceso.

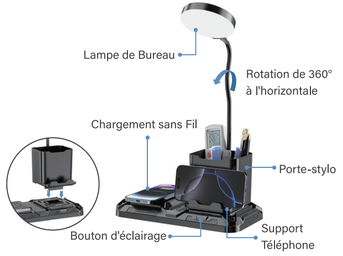
French

Aligner l'espace et insérer le bas du porte-stylo dans la base (Attention : Avec le support de téléphone pour l'avant).



Conseils

1. Puissance de charge sans fil jusqu'à 10W.
2. L'étui du téléphone doit avoir une épaisseur inférieure à 5mm.
3. Plus l'étui est épais, plus le temps de charge sans fil est lent.
4. La meilleure façon de charger est sans étui.
5. La lampe de bureau d'une puissance de 3,5W.

Guide d'utilisation

1. Insérer la fiche à l'arrière de la base dans le port de sortie.
2. Appuyer sur le bouton d'éclairage pour allumer les lumières. Cliquer sur le bouton d'éclairage permet de choisir le mode de couleur et le niveau de luminosité de l'éclairage. Appuyer sur le bouton d'éclairage et maintener-le enfoncé pendant 2 secondes pour éteindre la lumière, la luminosité et la couleur de l'éclairage mémorisant le dernier état.
3. La lampe de bureau offre 4 modes de cycle d'éclairage : Lumière mixte 100 % de luminosité - Lumière mixte 50 % de luminosité - Lumière mixte 20 % de luminosité - Lumière chaude 100 % de luminosité.
4. Le chargement sans fil prend en charge les téléphones qui se chargent sans fil et sans câbles encombrants.
Tout ce dont vous avez besoin est organisé en un seul endroit pour un accès facile.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person is no closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals in the order of a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 447498.
