Subject: FW: Response to Inquiry to FCC (Tracking Number 149461)

Hi All,

Fyi, FCC can accept the radio report using subcontract lab's data, detail see below FCC's reply.

Best regards,
Andy Yan

Subject: Response to Inquiry to FCC (Tracking Number 149461)

Inquiry on 05/25/2021 :

Inquiry:

Dear Officers,

Good day.

Can Lab A produce the radio report if a Bluetooth earphone for FCC certification was tested by lab B?

Note.: Both Lab A and Lab B were accredited by A2LA and listed on FCC OET Web. Both the Laboratories have the scope of Bluetooth device. The Lab A report will indicate that the test were conducted by Lab B and reported the lab B's test equipment lists etc.

Thanks.

Best Regards

Andy

FCC response on 06/03/2021

Dear Andy,

In the proposed scenario it is acceptable for Lab A to complete the report for a device tested at Lab B but note that Lab A would assume full responsibility for any mistakes of Lab B's. Also note that all testing must be completed at an FCC Recognized Test Laboratory and the completed test report should clearly identify where the testing was completed and who prepared the test report.

Best Regards,
OET Staff
