RE: LONG TERM CONFIDENTIALITY REQUEST FOR SKM Smart Key Modul, FCC ID 2A2HN-RIM1142

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the:

- Block Diagram, Schematics

required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment descriptions and related information about the product, which Rimac Technology d.o.o. considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Rimac Technology d.o.o. feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely Yours,

Ivica Koprivnjak

Electrical Engineering Testing Manager

Rimac Technology, Ljubljanska ulica 7, 10431 Sveta Nedelja, Croatia
