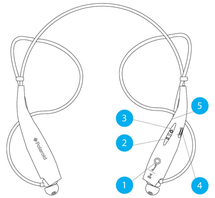
IN THE BOX

Wireless Headphones

Micro USB Charging Cable

Replacement Ear Tips

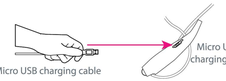
LOCATION OF CONTROLS



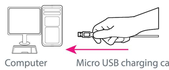
1. [ ] Button -
   - Quick press to play and pause music
   - Quick press to answer and end phone calls.
2. [-] Button -
   - Long press to decrease the volume.
   - Quick press to replay the previous track in your music playlist.
3. [+] Button -
   - Long press to increase the volume.
   - Quick press to play the next track in your music playlist.
4. [ON/OFF] switch
5. Micro USB charging port

CHARGING THE HEADPHONES

1. Remove the protective cover from the micro USB port.Connect the small end of the micro USB charging cable to the micro USB charging port on the headphones (Figure 1).



2. Connect the larger end of the micro USB charging cord to an available USB port on your computer or AC Adaptor (not included).

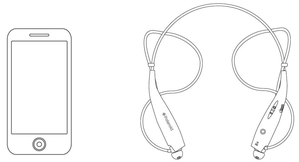


3. When charging, the LED indicator is RED. The LED indicator will turn off when the headphones are fully charged.

4.Remove the micro USB charging cable when charging is complete.

PAIRING THE HEADPHONES

1. Turn the headphones on by sliding the [POWER ON/OFF] switch to the ON position. A tone is heard, indicating that the headphones are in pairing mode. The LED indicator will quickly flash BLUE.
2. Open the "Settings" menu on your mobile device to make sure that your device's Bluetooth feature is turned on.



Make sure you charge the headphones for at least 4 to 5 hours before using it for the first time.

PAIRING THE HEADPHONES (cont'd)

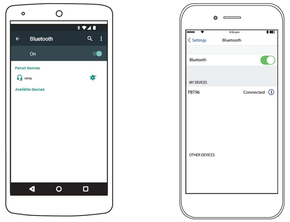
3. Keep the headphones and your Bluetooth-enabled device within 3 feet of each other during the pairing process.
4. Set your mobile phone or other Bluetooth-enabled device to search for Bluetooth devices.
5. When your mobile phone (or other Bluetooth-enabled device) finds the headphones, select PBT96 from the list of found devices.
6. If required, enter the password 0000. Select OK or Yes to pair the two units.
7. After a successful pairing, a tone will be heard and the LED indicator will slowly flash BLUE.

NOTE: If you would like to connect the headphones to another device, you must unpair the speaker from the currently paired device first. In your device's Bluetooth settings, select "PBT96", then select "Disconnect" or "Unpair".When the headphones are unpaired, repeat the pairing process with the second device.

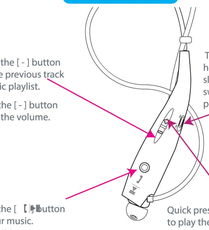
The screenshots above are typical of many Bluetooth-enabled devices in the market today, and are used to assist in the explanation of the pairing process. Your Bluetooth-enabled device's interface and interaction with the Wireless headphones may differ slightly from the illustrations above.

PAIRING THE SPEAKER (cont'd)

On an iPhone or Android device
- Go to SETTINGS > BLUETOOTH (Make sure Bluetooth is turned ON)



ING THE HEADPHON



Quick press the [-] button to replay the previous track in your music playlist.

Long press the [-] button to decrease the volume.

Quick press the [ ] button to pause your music. Press the [ ] button again to resume media playback.

To turn the headphones ON, slide the [ON/OFF] switch to the ON position.

Quick press the [+] button to play the next track in your music playlist.

Long press the [+] button to increase the volume.

TROUBLESHOOTING

I can pair the Wireless Headphones with my Bluetooth-enabled device, but I cannot hear any music.

1. Make sure your Bluetooth device supports A2DP profile.
2. Turn up the volume on your Bluetooth device.
3. You may have to unpair the headphones, then re-pair to your device (refer to the "Pairing the Headphones" section of this guide.

My Bluetooth device is not able to pair with the Wireless Headphones.

1. Make sure the headphones are turned ON before beginning the pairing process.
2. Keep the headphones and Bluetooth-enabled device within 3 feet of each other during the pairing process.
3. Check that YOUR device's Bluetooth feature is turned ON.
4. Try repeating the pairing process. Refer to the "Pairing the Headphones" section of this guide.
5. Make sure the headphones are fully charged.

TROUBLESHOOTING (cont'd)

I cannot get the Wireless Headphones into pairing mode.

1. Make sure the headphones are turned ON before beginning the pairing process.
2. Make sure that your device's Bluetooth feature is turned on and the device is ready to search for Bluetooth devices.
3. Check that your headphones are charged.

I cannot hear the volume and my device's volume is turned up.

1. LONG press the [+] button to increase the volume of the headphones.

I cannot hear but the headphone's volume is turned up.

1. Make sure your connected device's volume is turned up all the way.

When the headphones are at maximum or minimum volume, increasing or decreasing the volume using [+] or [-] will emit a tone indicating that the volume cannot increase or decrease anymore.

WARRANTY

This product as supplied and distributed new by AIT, Inc. ("AIT") to the original consumer purchaser is warranted by AIT against defects in material and workmanship for a period of one year from your date of purchase ("Warranty"). In the unlikely event that this product is defective, or does not perform properly, you may within one year from your original date of purchase return it to the authorized service center for repair or exchange.

TO OBTAIN WARRANTY SERVICE:
- Call the Customer Support number located below, or go to our website portal to receive an SRO number.
- Provide proof of the date of purchase within the package (Dated bill of sale).
- Prepay all shipping costs to the authorized service center, and remember to insure your return.
- Include a return shipping address (no P.O. Boxes), a telephone contact number, and the defective unit within the package.
- Describe the defect or reason you are returning the product.

Your product will be repaired or replaced, at our option, for the same or similar model of equal value if examination by the service center determines this product is defective. Products received damaged as a result of shipping, will require you to file a claim with the carrier.

The shipping address of the authorized service center is:

AIT, Inc.
ATTN: Customer Service (2nd Floor)

Polaroid

FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment does use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device has been awarded a Total SAR of 1.6 W/kg. The device can be used in hand position against the ear. Additional antenna information, if applicable, may be found in the documentation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

PLR IP Holdings, LLC, in business since 1985, fully supports all electronic audio products, as appropriate rewards of the advertised "warranty" and to avoid returning unidentified units, you should properly dispose of the product in compliance with all applicable regulations. Dispose of the product in a way where you include any batteries or other components in the product. Please appropriately dispose of the product.

Warranty Non-applicable: Warranty Void if Product Tamper Seals Are Broken

Warranty Void if Product Serial Number Has Been Altered or Removed

Voids Warranty if the product is used in any manner not in accordance with the instructions provided in the owner's manual and/or if the product is used for any purpose other than its intended purpose

Voids Warranty if the product is used in any commercial, industrial or rental application

Voids Warranty if the product is used in any application for which it was not designed

Voids Warranty if the product is used in any way that causes damage to other equipment

Voids Warranty if the product is used in any way that causes injury to the user

Voids Warranty if the product is used in any way that violates any local, state, or federal laws, rules or regulations

Voids Warranty if the product is used in any way that causes a fire, explosion or other hazard

Voids Warranty if the product is used in any way that causes a shock or electrical hazard

Voids Warranty if the product is used in any way that causes a chemical hazard

Voids Warranty if the product is used in any way that causes a radiation hazard

Voids Warranty if the product is used in any way that causes a biological hazard

Voids Warranty if the product is used in any way that causes a nuclear hazard

Voids Warranty if the product is used in any way that causes a thermal hazard

Voids Warranty if the product is used in any way that causes a mechan
