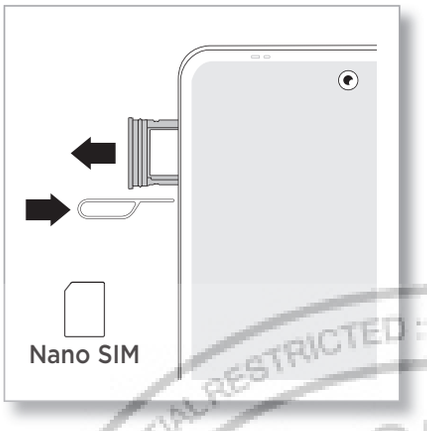
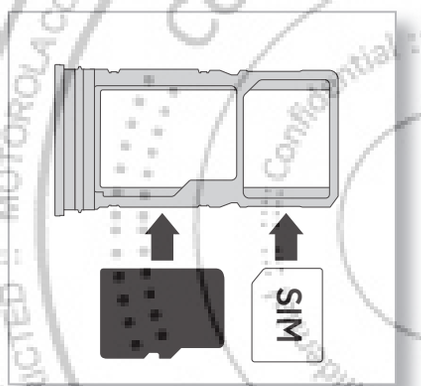
Put in the card & power on



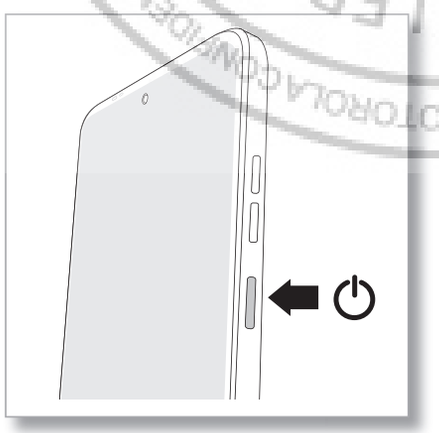
1 Insert the SIM tool into the hole next to the tray to pop out the tray.

Make sure you use the correct size SIM card and don't cut the SIM card.



2 Insert the SIM card with the gold contacts down, then gently push the tray into the slot.

Add a microSD card (optional, sold separately) for additional storage.



3 Press and hold the Power button to turn on your phone, then follow the prompts to get started.

Note: Press the Power and Volume Up buttons at the same time to turn off your phone.

eSIM option: Your phone may have an eSIM (embedded SIM card) in addition to the physical SIM card. Contact your service provider for details if you want to activate and use it.
