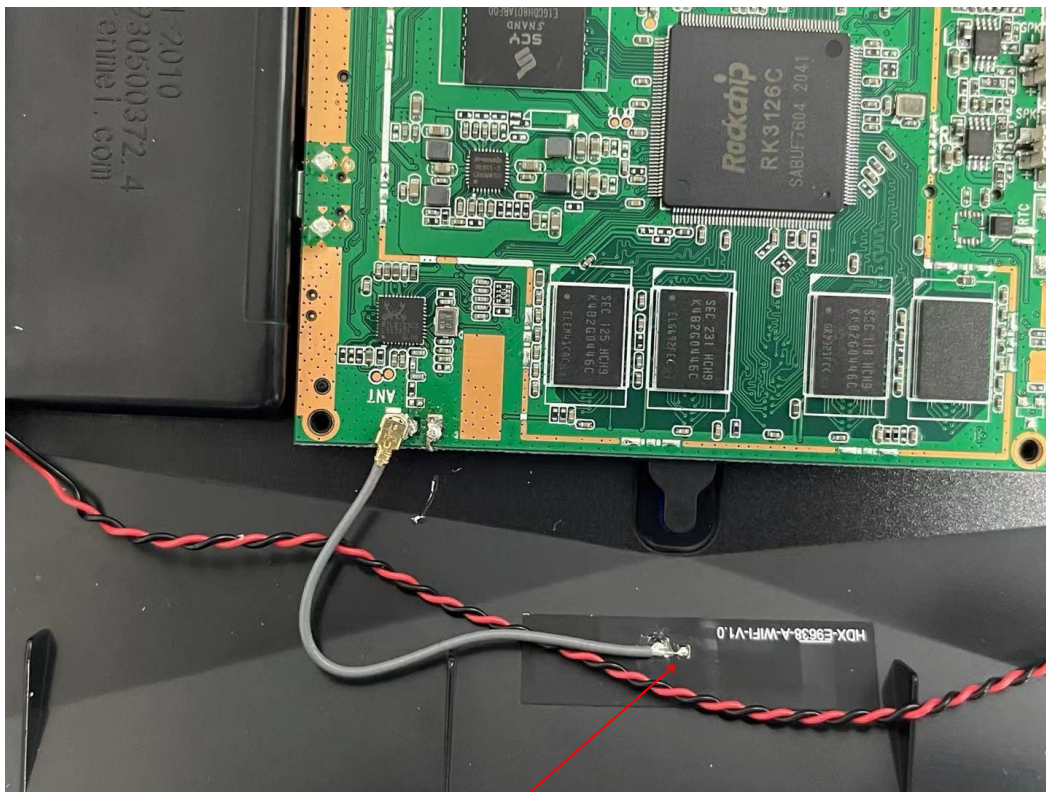

Photo 2

A photograph of a Raspberry Pi 1 Model B printed circuit board (PCB). The board is green with gold-colored pads and traces. Key components visible include the Broadcom BCM2835 SoC (labeled 'BCM2835 1/16 MIF1'), 512MB of RAM (labeled '021052585 2106405 77'), a USB Type-A port, a micro-USB port, a 3.5mm audio jack, and a 40-pin GPIO header. The board is set against a blue background.
