Bluetooth HandsFree Car Kit

Introduction

The Rearview Mirror HandsFree Car Kit (MHF-R220BT) is a wireless device that utilises the latest **Bluetooth*** technology to communicate with your compatible phone within a 10-metre range. This allows you to talk through its built-in high quality loudspeaker and external high sensitivity microphone without the need to hold the phone or take your hands off the steering wheel.

So easy to install, just plug into your vehicles lighter socket and simply clip the **MHF-R220BT** unit over the existing Rearview mirror and once set up, you will be able to answer, end, reject, redial, place calls or adjust the loudspeaker volume by the simple press of a button, wherever your phone is in your car- there is no need to even remove your phone from your pocket or purse.

The **MHF-R220BT** also supports voice dialling** which enables you to dial your favourite contacts without the need to touch the phone and allow you to remain concentrated on safely driving your car.

*** Ring Tone (4 kinds) : 1 voice, 3 ring sounds**

Notes :

** Bluetooth wireless technology is an international standard for short range wireless communication. It allows you to establish a wireless connection within a range of 10 metres between your **MHF-R220BT** and a compatible device. Bluetooth is a registered trademark of Bluetooth SIG Inc.*

*** Functions only with cellular phones with voice dialling capability.*
