| <p><b>EUT Housing and Board</b><br/><b>View 3</b></p>             |  A photograph showing the EUT housing and board from a top-down perspective. The components are laid out on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in centimeters (0 to 100) and one in millimeters (0 to 100). The components include a black circular housing with a clear lens, a white plastic ring, a small white plastic component, and a green printed circuit board (PCB) with two black components. The PCB is labeled '202-10323'. |
| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>1</b></p> |  A photograph showing a close-up of the solder board-component view. The green PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in centimeters (0 to 100) and one in millimeters (0 to 100). The PCB is labeled '202-10323' and shows two black components soldered to the board.                                                                                                                                                    |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph of a green printed circuit board (PCB) component, labeled '2', positioned on a blue textured surface. The component is rectangular with rounded corners and features two large black rectangular areas, likely solder pads or components. It is surrounded by a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size.                       |
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph of a green printed circuit board (PCB) component, labeled '3', positioned on a blue textured surface. The component is circular and features various electronic components, including a large black rectangular area, likely a microcontroller or memory chip. It is surrounded by a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size. |
