

Solder Board-Component View 4	 A photograph of a green, circular printed circuit board (PCB) component. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, 80, and 90 mm. The component is approximately 15 mm in diameter. The PCB has several small, square components soldered onto its surface, including what appears to be a microcontroller or IC in the center.
Solder Board-Component View 5	 A photograph of a small, rectangular component, likely a battery or a small PCB, with a yellow and black label. The label has text that is partially legible, including "3.7V 500mAh" and "EVA 401020". Two thin wires, one red and one black, are attached to the component. The component is placed on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, 80, and 90 mm. The component is approximately 15 mm in length.
