Bluetooth Earphone

USER MANUAL

Security Precautions

In order to have a proper and safety use of the headset, please read this user manual in detail and save it.

✱Be sure to aware the following guidelines when using your headset:

1. Should adjust volume and time reasonably when using the headset.
2. Please stop using the headset in potentially hazardous situation to ensure your safety.
3. Please avoid using headset to listen to music, make or receive calls to avoid distraction while driving.
4. Put this product and its accessories somewhere out of the reach of children, to avoid a fatal danger caused by inappropriate use.
5. Should keep water from entering the headset during grooming, which may cause damage to the sound quality or the headset.
6. Should avoid turning the volume so high that you can't hear anything around you. If you feel a tinnitus or the volume is too high, please reduce the volume.
7. Stop using the headset if you feel obvious discomfort, irritation or have other adverse reactions.
8. The headset should not be stored or used at temperatures below 15℃(5°F) or above 55℃(131°F) which may shorten headset or battery life.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
