7）Matters need attention in using the bracket:

a. The bracket supports the operating system iOS 8.0 system and above, Android system 4.4 version and above, mobile phone or tablet equipment with bluetooth V4.0 in theory. Indeed, it doesn't support all modes of mobile equipment. Please refer to the practical condition.

b. This product is internally made of precision parts. Please do not drop this product or bump it with hard objects, otherwise the machine surface might be scratched or the components might be damaged.

c. Please do not decompose or rebuild this machine, which may cause problems or hamper product warranty.

d. It is forbidden to throw this product into the fire so as not to cause an explosion.

e. Please be aware that if you wear sensitive skin or wear your bracelet too tightly, you may feel uncomfortable.

f. When the bracelet is wet, dry it before it is charged, otherwise it will cause failure and corrode the charging contact point.

g. In strong electrostatic environment, bracelet may fail, such as no display or abnormal display and so on. Do not use in high voltage and high magnetic environment, so as to avoid static interference.

h.When the lens and shell remain intact, it is watertight. Violent demolition or impact may cause waterproofing failure.

i. The product is waterproof only for cold water. Hot water may cause white fog in the lens.

j. The battery life time varies from the usage environment and the usage mode.

Disclaimer:

Warning: This product is not a medical device, the bracket and its applications do not apply to the diagnosis, treatment, or disease prevention and other behaviors. If you want to change sleep, sports and other habits, please be sure to consult the qualified professional medical personnel in the first, so as to avoid serious casualties. Our company reserves the right to modify and improve any function described in this manual without prior notice. At the same time, our company keeps the right to update product contents. All contents are subject to the object.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
