尺寸: 280*100mm 双面印刷 材质: 128克铜版纸

Wireless Car Charger
IC-Q1

Contents

① Wireless Charging

② Car Charger

③ Air Vent Mount

④ User Manual

⑤ Type-C Cable

Installation Instructions

① Rotate the knob counterclockwise to engage with the mounting bracket.

② Adjust the bracket hook and secure the position.

③ Connect the power.

④ Start charging.

The 25W Max fast charging effect of this product requires that your mobile device must support the corresponding fast charging protocol. Please refer to the specifications of your device.

Product Features

1. Built-in strong magnets, easier for one-hand operation.
2. Built-in smart semiconductor chilling plate and cooling fan, the fan will start working when the wireless charging starts, the chilling plate cools the wireless charging coil and the phone surface simultaneously to improve the wireless charging efficiency.
3. Standby mode: The light with cycle memory function, the RGB light keeps on after running 3 laps, and the brightness is halved after 10 seconds of standby.
4. Charging mode: The ice blue light breathing.
5. Fan Button: When wireless charging, press the button to turn off the fan and semiconductor chilling plates. When off, the fan will stop working 20 seconds later after the semiconductor chilling plate stops.
6. Light Button: RGB running light will display according to the memory function when powered on: Press the light button, the green light turns on and keeps on. After 10 seconds, the brightness is reduced to half. Press the light button, and the light gradually changes from red to green, blue, ice blue, yellow, purple, and white. After 10 seconds, the brightness is reduced to half. Press the light button again to turn the light off. Press the light button again, return to step 1, and the cycle repeats.
7. FOD function: when put such as one coin, metal, or magnetic objects on the charger, the ice blue light flashes 6 times and the phone does not charge.
8. Comprehensive protection: such as temperature, overpressure, etc.

Specifications

Input	12V-24V
Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A
Product Standard	Qi2.2
Charging Distance	≤3mm
Charging Efficiency	≤70%
Product Dimension	68.6×44.9×68.6mm
Product Material	ABS+Tempered Glass

Fast wireless charging requires PD45W or above adapter.

Attention

1. Please do not vigorously extrude or collide.
2. Please do not dismantle or put it into fire or water when the product is power on, to avoid short circuit or leakage.
3. Please do not use it in severely high temperature, high humidity or corrosive environment, to avoid damage to the circuit leakage.
4. Please do not put the magnetic strip or chip card (Such as ID card, bank card etc.) on the charging pad to avoid to cause magnetic card lose efficacy.
5. Please do not put the metal (Such as coin etc.) on the charging pad when charging, to avoid damage from heating.

Note: This product is applicable to all Qi standard wireless charging phones, other phones need an external receiver for wireless charging function.

Product Operating Guide

1. Please make sure the product connect to the power before using.
2. The product stop charging when the current is too large or there is foreign object. Do not wireless charging the phone if similar situation happened.
3. Please purchase the wireless receiver module or case separately (Not included in the product) if your phone do not support wireless charging.
4. The power input is 15V, when placed the phone and wireless charging starts, the chilling plate works and the fan rotates. When the phone is removed, the chilling plate stops working and the fan stops rotating 20 seconds later.
5. It is recommended to use phone case less than 2.5mm thick. The product cools the phone backside surface, too thickness phone case will affect the cooling effect.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and

can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modification not expressly approved by the manufacturer could void the user's authority to operate this product.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Made in China

Warranty & Customer Service

Thank you for purchasing our product. We provide comprehensive after-sales service to ensure you have an excellent user experience. To safeguard your rights, please read the following warranty instructions carefully:

1. This product offers a one-year warranty service under non-human factors:
 - (1) Returns and Exchanges: Supported within one month of purchase.
 - (2) Free Repairs: Supported within one year of purchase.
2. The warranty does not cover:
 - (1) Damage caused by improper use or unauthorized disassembly of the product.
 - (2) Product malfunctions caused by repairs not authorized by our company.
 - (3) Damage or malfunctions caused by external forces or other human factors.

The warranty period starts from the date of purchase. Please provide proof of purchase when seeking repairs. If proof of purchase is unavailable, the warranty period will be calculated from the manufacturing date. This product is applied for LOCAL WARRANTY ONLY (valid only in the country/region where you purchase this product), for any warranty services please contact your local dealers directly.

3. For repairs and related inquiries, please contact our service email: support@szjteech.com
