3. Press the Previous Track button briefly to play the previous track; press and hold the Previous Track button to decrease the volume.
4. Press the Next Track button briefly to play the next track; press and hold the Next Track button to increase the volume.

Frequently Asked Questions

Q1: What precautions should I take when charging my phone?

A1: If using a phone case thicker than 2mm, please remove it to ensure proper charging.

Q2: What should I do if the charging indicator light keeps flashing?

A2: Immediately check if the phone is centered and free of obstructions, or if the phone case is thicker than 2mm. Also check if the magnetic charging contacts on the phone case are misaligned, preventing proper charging. After addressing these issues, reposition the phone for charging.

Q3: Can I use a different power adapter?

A3: For proper operation, please use the original adapter or an adapter with a PD 30W or higher power rating.

Precautions

Compatible Devices

Please check whether your phone supports wireless charging. This product supports fast wireless charging and uses coil induction for short-distance wireless power transmission.

Adapter Options

It is recommended to use the original power adapter first, or use a PD adapter with a power output of 30W or higher. If the adapter power is insufficient, wireless charging may become slower, unstable, or the device may not work properly.

Warning!

- Do not place metal debris or magnetic cards on the charging pad, as this may cause the charger to overheat.
- Remove any foreign objects when the alarm is triggered.
- Slight heating during wireless charging is normal. If obvious overheating, odor, or any abnormal condition occurs, stop using the product immediately and disconnect the power supply.
- Do not place the charger near fire sources or in corrosive environments.
- This product contains glass. Please handle with care. Broken glass may cause injury. Do not throw or drop this product.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment . This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Caution: Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate this product.

Warranty & Customer Service

Thank you for purchasing our product. We provide comprehensive after-sales service to ensure you have an excellent user experience. To safeguard your rights, please read the following warranty instructions carefully:

1. This product offers a one-year warranty service under non-human factors:

- (1) Returns and Exchanges: Supported within one month of purchase.
- (2) Free Repairs: Supported within one year of purchase.

2. The warranty does not cover:

- (1) Damage caused by improper use or unauthorized disassembly of the product.
- (2) Product malfunctions caused by repairs not authorized by our company.
- (3) Damage or malfunctions caused by external forces or other human factors.

The warranty period starts from the date of purchase. Please provide proof of purchase when seeking repairs. If proof of purchase is unavailable, the warranty period will be calculated from the manufacturing date.

This product is applied for LOCAL WARRANTY ONLY (valid only in the country/region where you purchase this product), for any warranty services please contact your local dealers directly.
