Warning

- Do not disassemble the device casing by yourself to avoid the risk of electric shock.
- Keep away from moisture and do not place near water sources.
- Do not use this device in humid environments to avoid electric shock or device damage.
- This device shall be kept at a distance of at least 20 cm from the human body during use to comply with RF exposure safety requirements.
- Do not use the device in close contact with the human body for a long time to avoid the risk of radio frequency energy exposure.
- Do not disassemble or modify this device without authorization.
- Do not use this device in high-temperature, flammable or explosive environments.
- Keep the device well-ventilated and avoid blocking the heat dissipation holes.
- If an external antenna needs to be installed, it is recommended to be installed by a professional.
- Small parts in the device may pose a swallowing hazard; keep the device out of the reach of children.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause unintended operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator and your body.

CE Declaration of Conformity

Hereby, Acer Gadget Inc. declares in compliance with the essential requirements and the other relevant provisions of the Radio Equipment Directive 2014/53/EU and RoHS Directive 2011/65/EU.

Disposal of Waste Equipment by Users in Private

Households in the European Union

This symbol on the product or its packaging indicates that this product must not be disposed of with other household waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the store or the shop where you purchased the product.
