

Declaration Letter for Enterprise/Non-Consumer Device USE Access Point

FCC ID: 2A2PW320689

To whom it may concern,

We, FS.COM Inc., are writing to clarify the intended use of the equipment in this application. We hereby certify that the device is designed and marketed as an enterprise-grade access point and is intended solely for non-residential, commercial use. Based on the Federal Communications Commission's guidance regarding routers included in the Covered List, and evaluating the product against the definition of "consumer-grade routers" as referenced in NIST IR 8425A, we respectfully provide the following context regarding the intended design and function of the **AP-N716** access point:

Product Application and Environment

The design of the **AP-N716** is optimized for modern, device-dense commercial environments, such as offices, classrooms, hospitality venues, and retail spaces. Its primary intended function is to facilitate wireless connectivity within a local area network (LAN) architecture, and it is meant to be deployed within commercial settings

Sincerely,

Name and surname of applicant (or authorized representative): Tao Zhang
