KCFM2C Find Me Light

Locator with LED flashlight for Keys, Bags, and More

The Apple Find My Network provides an easy, secure way to locate compatible personal items using the Find My app on your iPhone, iPad, Mac, or the Find Items app on Apple Watch.

To use the Apple Find My app to locate this product, the latest version of iOS, iPadOS, or macOS is recommended. The Find items app on Apple Watch requires the latest version of watchOS

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.

Apple, Apple Find My, Apple Watch, Find My, iPhone, iPad, iPadOS, Mac, macOS and watchOS are trademarks of Apple Inc., registered in the U.S. and other countries. IOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license.

Description of Parts

1. Starting up

- a. Turn on the Device
 - i. Click the Find My button, the device will emit a tone, LED indicator will blink and turn on
- b. Pair the device

- i. Make sure the internet connection is stable and turn on Bluetooth, upgrade the device to the latest version iOS or macOS.
 - ii. Open the “Find My” app to start pairing.
 - iii. Hold the item close to your Apple device like iPhone, tap the “Items” tab and tap “Add Other Items”
 - iv. iPhone will search the item and display “*item name*”. Tap “Connect”. (if not searched, please press the button again)
 - v. Enter a name for your item and select an emoji.
 - vi. Tap “Agree” to acknowledge that this item will be linked to your Apple ID.
 - vii. Tap “Finish” to enjoy the wonderful location services.
- c. Remove the device from “Find My” app
 - i. One device can only pair one iPhone at the same time. You must remove the device from the “Find My” app before you pair another iPhone or Apple Device
 - ii. Open the Find My app, tap the “items” tab, then tap your item.
 - iii. Tap “Remove item” and scroll down to the bottom of the page, then tap “Remove Item” to complete the operation.
 - iv. When removing a device, place it next to your iPhone to ensure a stable connection. After successful removal, the device will emit a tone and can now be paired with a new account.
- d. Turn off the device
 - i. Turn off the device will disable the iPhone connection and LED button function
 - ii. When the item is on, press and hold the Find My button for five seconds, you will hear two confirmation beeps, release the button immediately, you will hear a beep sound indicating that the item is now turned off and in shutdown mode.
 - iii. Press the button again to exit turn off mode and turn the item back on.
- e. Factory Reset
 - i. Press the Find My button four times quickly and continue holding from the fifth press until the LED indicator flashes three times and you hear a beeping sound, which restores the item to factory settings. A reset operation may solve connection issue with iPhone.
 - ii. Before performing Factory reset, please remove the device from “Find my” first, otherwise the device will lose connection. You will need to remove the device from “Find my” and reconnect it to restore the connection.

2. LED flashlight function

- a. LED flashlight function only works when the product status is turned on
 - i. Click the LED button to turn on the LED flashlight
 - ii. Click the LED button again to turn off the LED flashlight
- b. Remember to turn off LED flashlight when not use, otherwise battery will run out in short period of time.

3. Find My App function

- a. Locate your item
- b. If your missing item isn't nearby, don't worry -- the Find My app can still help you track it down using the Find My network, a vast system of hundreds of millions of Apple devices around the world. Nearby Apple devices can securely detect your item's location and relay that information to iCloud, allowing you to view it in the Find My app. This process is completely anonymous and encrypted, ensuring everyone's privacy is protected.
- c. Play Sound
 - i. Open the Find My app, tap the "Items" tab, then tap your item. Click "Play Sound" and the item will emit a tone, allowing you to locate it easily. The indicator light will also flash.
- d. Enable Lost Mode
 - i. Open the Find My app, tap the "Items" tab, then tap your item.
 - ii. Under "Lost Mode", tap "Enable".
 - iii. Read the instructions, tap "Continue" and enter phone number or email address for other to contact you.
 - iv. Confirm the information, tap "Next" customize the lost message, and tap "Activate" to complete the setup.

4. Replacing battery

Figure 1

Figure 2

- a. Loosen 4 screws by using Phillips screwdriver as shown on figure 1 and remove the back cover
- b. Slide out the two batteries as shown on figure 2
- c. Replace with two pieces of new Energizer CR2032

5. Troubleshooting

- a. iPhone cannot find and pair the device
 - i. Possible cause: Device is turned off
 - Follow 1a instruction to turn on the device
 - ii. Possible cause: Device is already paired to another iPhone/ When removing the device from Find App, it is not near the iPhone
 - Follow 1c instruction to remove the device from another iPhone and follow 1e instruction to reset factory setting
 - iii. Possible cause: Bluetooth or internet is not stable
 - Turn on Bluetooth and make sure the internet is stable
 - iv. Possible cause: Low battery
 - Follow 4a-c instruction to replace battery
- b. LED button no function
 - i. Possible cause: Device is turned off
 - Follow 1a instruction to turn on the device
 - ii. Possible cause: Low battery
 - Follow 4a-c instruction to replace battery

FAQ

1. What is the Find My network? How does it work?

The Apple Find My network provides a secure and easy way to locate your personal items using the Find My app on your Apple devices. By pairing your item with the app, you can view its location alongside your other devices signed in with the same Apple ID. If your item becomes separated from your iPhone, millions of Apple devices worldwide will detect its Bluetooth signal and securely upload its location to iCloud, allowing you to see its latest position in the Find My app. If lost, you can activate Lost Mode to display a message and your contact information to anyone who might find it. Only you can view your item's location, as your location data and history are never stored on the item itself. Devices that relay its location remain anonymous, and all data is encrypted, ensuring that no one else, including Apple, can access your device's location or the identities of the assisting devices. These privacy protections prevent unauthorized tracking, keeping your information secure and private. Leveraging billions of Apple devices globally, the Find My network securely and anonymously detects and relays your item's location. With advanced encryption and strict privacy measures, you can confidently use the Find My app to easily locate your personal items while safeguarding your privacy.

2. How is the device designed to discourage unwanted tracking?

If your item is separated from your iPhone, other Apple devices in the Find My network will detect the item's Bluetooth signal and securely upload its location to iCloud. You can then view the item's latest location in the Find My app. To protect your privacy and prevent unauthorized tracking, if a Find My network accessory separated from its owner is seen moving with you over time, you'll be notified in one of two ways: if you have an iPhone, iPad, or iPod touch running iOS or iPadOS 14.5 or later, Find My will send a notification to your device, and you can see the trail of your movements on the map and put the item into shutdown mode; otherwise, the accessory will emit a sound when moved. These anti-tracking features are specifically designed to discourage people from trying to track you without your knowledge. All location data is anonymous and encrypted to ensure everyone's privacy is maintained.

Regulatory Safety Information

WARNING: KEEP BATTERIES OUT OF REACH OF CHILDREN.

This product is not a toy. This product contains a lithium button/coin cell battery. If a new or used lithium button/coin cell battery is swallowed or enters the body, it can cause severe internal burns and can lead to death in as little as 2 hours. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

1. Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
2. Even used batteries may cause severe injury or death.
3. Call a local poison control center for treatment information.
4. The compatible battery type is CR2032.
5. The nominal battery voltage is 3V.
6. Non-rechargeable batteries such as the CR2032 are not to be recharged.
7. Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
8. Ensure the batteries are installed correctly according to polarity (+ and -).
9. Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
10. Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

11. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

⚠ WARNING	
• INGESTION HAZARD: This product contains a button cell or coin battery. • DEATH or serious injury can occur if ingested. • A swallowed button cell or coin battery can cause Internal Chemical Burns in as little as 2 hours. • KEEP new and used batteries OUT OF REACH of CHILDREN • Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.	

FCC Statement

Caution: Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(8).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exempts de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

L'appareil numérique du CIEM conforme canadien peut - 3 (b) / NMB - 3 (b).

This device meets the exemption from the routine evaluation limits in section 6.3 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 6.3 du CNR - 102 et conforme avec RSS

102 de l'exposition aux RF, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs RF et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable

exposure(0cm)condition without restriction.

Les dispositifs ont été évalués pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé sans restriction dans des conditions d'exposition portable (0cm).

Product Spec

Working voltage	6V DC, 80mA
Battery	2 x CR2032
Flashlight Lumen	25lm
Sound level	>60db
Dimensions	63x25x13mm
Weight	22g (Included battery)
System Requirements and Compatibility	Apple ID iPhone and iPod touch models with iOS14.5 or later, iPad models with iPad OS14.5 or later
