Input	DC 5V
Charging time	⩽2H
Earphones weight	21.5g
Earphones line length	420mm

CE RoHS

FCC ID :2A2UC-ZY01

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1) this device may not cause harmful interference, and

2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residentialinstallation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FAQ

Q I have connected the earphones with my phone, but I can not hear any sound.

A Please make sure that you have turned up the volume of both devices. Some phones require you to setup the bluetooth earphones as an audio output device before sound is transmitted. Please check the instruction of your phones. If you are using a music player or other bluetooth device, please make it supports A2DP stereo music profile.

Q The sound is not very clear./The caller cannot hear my voice clearly.

A Please adjust the volume on your phone and earphones. Please make sure there is no interference source nearby, and stay close to your earphones.

Q The connection is not stable and cuts out intermittently.

A Please make sure there is no radio or WIFI interference nearby.
