FCC

Federal Communications Commission (FCC) Statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/tv technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation exposure statement:

1. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Working temperature: 32F to 104F (0C to 40C)
Working Voltage: 110V to 240V
USB port is only used for peripherals or ADB access.

Important Safety Instructions

When using an electrical appliance, basic precautions should always be followed, including the following:
Read all instructions before using the REFLIKO MARA.

Danger - To reduce the risk of electric shock:

Always unplug this appliance from the electrical outlet immediately after using and before cleaning.

Warning - To reduce the risk of burns, fire, electric shock, or injury to persons:

1. An appliance should never be left unattended when plugged in. Unplug from outlet when not in use, and before putting on or taking off parts.
2. Do not operate under blanket or pillow. Excessive heating can occur and cause fire, electric shock or injury to persons.
3. This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Keep children under the age of 13 away from this machine.
4. Use this appliance only for its intended use as described in this manual. Do not use attachment not recommended by the manufacturer.
5. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped in water.
6. Do not carry this appliance by the supply cord or use the cord as a handle.
7. Keep the cord away from heated surfaces
8. Never operate the appliance with the air openings blocked.
9. Never drop or insert any object into any opening.
10. Do not use outdoors
11. Do not operate where aerosol spray products are being used or where oxygen is being administered.

Warnings

1. Always ensure that the REFLIKO MARA is wiped down after each use to keep it sanitary.
2. Cleaning and user maintenance shall not be made by children without supervision.
3. This appliance is suitable for moderate climates only.
4. The ventilation must not be impaired by covering the appliance with items such as newspapers, table cloths, curtains, etc.
5. Naked flame sources, such as candles, must not be placed on appliance.
6. In case of broken cords or plugs, the cable must be replaced.
7. The appliance is suitable for indoor use only.

Cleaning REFLIKO MARA

While cleaning your REFLIKO MARA, use a clean microfiber cloth to wipe down the mirror. Avoid using cleaning fluids as this could damage the oleophobic coating on the glass.
