

User Manual Dr Pepper TWS Can Asst Mode# RPX003A, RPAX003A-FBS26	Product Specification: Bluetooth Name: RPX003A Music Playback Time: 5hrs Battery Capacity: 150mAh Earbuds: 25 mAh Charging time: 2 hrs Charging Port: Type-C 5V 1A Instruction for Use: 1. Initial Pairing: Remove the earbuds from the charging case or Long-press the function button on either earbud for 2 seconds. The earbuds' red and blue LED lights will flash, indicating they are searching for a device. On your phone/device, go to Bluetooth settings and select "RPX001A". 2. Subsequent Connections: Removing the earbuds from the case will typically connect them automatically to your last paired device. 3. Earbud-to-Earbud Pairing: After successful pairing with your device, a blue light will flash on one earbud to confirm the earbuds are linked to each other. Charging Indicators: 1. Charging the Case: While charging: Red LED flashes. Fully charged: Red LED stays on steadily. 2. Earbuds Charging in the Case: While charging: Red LED stays on steadily (on the case or earbuds, depending on design - typically the case LED). Fully charged: Red LED turns off. Earbud Controls (Function Button): 1. Answer/End a Call: Single-press the function button. 2. Reject a Call: Long-press the function button. 3. Activate Voice Assistant (e.g., Siri/Google): Long-press the function button. 4. Play/Pause Music: Single-press the function button. 5. Previous Song: Double-press the function button on the right earbud. 6. Next Song: Double-press the function button on the left earbud.	7. Decrease Volume: Triple-press the function button on the right earbud. 8. Increase Volume: Triple-press the function button on the left earbud. 9. Power Off: Long-press the function button on either earbud for 4 seconds or Place the earbuds back into the charging case. Important Notices Auto Power Off: If pairing is unsuccessful for 5 minutes after entering pairing mode, the earbuds will automatically power off. Low Battery Warning: A "ding-dong" sound will play when the earbud battery is very low, indicating they need charging. Battery Level Compatibility: The earbuds are compatible with the battery level display feature on most Apple and Android phones. FCC Caution: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
---	---	---

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. CAUTION FOR YOUR SAFETY, the charging cable included with this item is intended for use with this product only. 8 inches Charging cable Input: 5V DC, 0.3A Output: 3.7V DC, 150ma USB Cable rating 0.2A, 1W Max Frequency Response: 20Hz-20KHz Questions? Comments? Contact: contact@culturefly.com FCC ID: 2A2WN-SCTWS01	THIS IS A BATTERY-OPERATED PRODUCT. THIS IS NOT A TOY. INTENDED USE OF THE PRODUCT SHOULD NOT RESULT IN EXPOSURE TO THE BATTERY. In case of rupture, the below hazards exist. Harmful if swallowed. Causes skin irritation. Causes eye irritation. May cause respiratory irritation. Proper Handling: Do not open, disassemble, crush, or burn battery. Do not handle battery in a manner that allows terminal to short circuit. Avoid mechanical damage of the battery. Battery may explode or cause burns, if disassembled, crushed, or exposed to fire or high temperature. Do not short or install with incorrect polarity. Avoid all personal contact, including inhalation. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. Prevent concentration in hollows and sumps. Proper Storage: Store in a cool, dry, well-ventilated area. Keep away from heat and direct sunlight. Disposal considerations: Recycle in accordance with government, state and local regulations, to ensure proper disposal. If exposed to the battery - potential health effect and first aid measures: After eye contact: Flush eyes cautiously with plenty of water for several minutes while holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists. After skin contact: Remove contaminated clothing and shoes. Immediately wash with water and soap and rinse thoroughly. Wash clothing and shoes before reuse. If irritation occurs, get medical attention. After inhalation: Remove person to fresh air and keep comfortable for breathing. Administer artificial respiration if breathing is difficult. Seek medical attention. After swallowing: Rinse mouth with water. Do not induce vomiting. Get medical attention.	Battery may burst and release hazardous decomposition products when exposed to a fire situation. Lithium-ion batteries contain flammable electrolyte that may vent, ignite, and product sparks when subjected to high temperature (>65°C) (>150°F), when damaged or abused (e.g. mechanical damage or electrical overcharging), may burn rapidly with flare-burning effect, may ignite other batteries in close proximity. Special protective actions for firefighters: Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection. Eliminate all ignition sources (no smoking, arcs, sparks, or flames in immediate area). Do not touch or walk through spilled material. Absorb with earth, sand, or other non-combustible materials. Leaking batteries and contaminated absorbent material should be placed in metal containers. Suitable fire-extinguishing media: Small fire: dry chemical, CO2, water spray, or regular foam. Large fire: water spray, fog, or regular foam.
