IV.Warning

1. DO NOT disassemble this product by yourself.
2. Please DO NOT use the product in humid and high-temperature environments;
3. The light source of the Product cannot be replaced. When the light source expires, please replace the whole Product;
4. Please cut off the power when you have not used the Product for a long time;
5. When the Product is in regular use, do not place it on an inclined surface more significant than 6°;
6. Please use an adapter with compliance certification;
7. Children under 14 need to use it properly in the custody of adults.
8. Use separate collection facilities for electrical appliances that do not dispose of unsorted municipal waste. Contact your local government for information about the collection system. If electrical appliances are discarded in landfills or dumps, hazardous substances can seep into groundwater, enter the food chain, and damage your health and well-being.
9. If consumers use power sources or chargers for power supply, they should purchase certified power sources that meet standard requirements and are less than PS2 power sources (recommended parameters: 9V/2.5A). Using unapproved or incompatible power sources or chargers may cause fires or other hazards.
10. The radio waves generated by the equipment may affect the

4

normal operation of implantable medical devices or personal medical devices, such as pacemakers, cochlear implants, hearing AIDS, etc. If you have used these medical devices, please consult their manufacturers about the restrictions on using this device. When using this device, please keep at least 30 centimeters away from implanted medical devices (such as pacemakers, cochlear implants, etc.).

11. Do not place any items between the mobile phone and the charger. If magnetic stands, protective cases, metal substances or items with NFC or RFID chips such as room cards, public transportation cards, bank cards or passports are placed between the mobile phone and the charger, it may reduce the performance of the charger, cause overheating and even damage the items. If you have these sensitive items in the protective case, please remove them before charging to ensure they are not between your phone and the charger.

12. This device supports FOD detection function. Under the specified wireless charging intelligent RX full-function test module (MPP version V3.1 setting parameters: 0v: 0.94 FOD: 33%), with an output of 15W, it can quickly detect foreign objects, cut off the output, and ensure product safety.

FCC warning:

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is

5

subject to the following two conditions:

- (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
- Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

6

WARNING

1. Not suitable for children under 3 years old;
2. This product is not a toy and is suitable for people over 14 years old;
3. The product contains small parts, please do not allow children under 3 years old to play;
4. Please pay attention to the sharp corners or edges of the product to avoid injury.
