User Manual

Product name:Wireless charger x8

Model: WI02

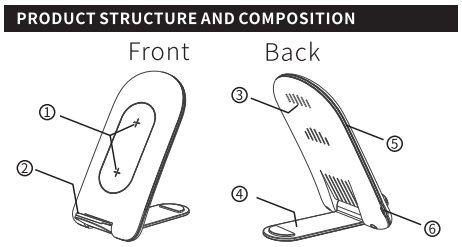
Accessories:
Wireless transmitter ×1
Type C data cable ×1
User manual ×1

Note:
Thank you for your acquisition of this wireless transmitter, compatible with all Qi devices like Samsung S7/S7 edge, S8/S8 edge, S9/S9 edge, S10/S10 edge, iPhone 8/8 Plus, iPhone X, iPhone XR,iPhone XS, iPhoneXS MAX, iPhone 11, iPhone 11 Pro, iPhone 11 Pro MAX.
For optimum performance and safety, please read this manual carefully before using this product.

SPECIFICATIONS

Power	15W / 10W / 7.5W / 5W
Input	5V/2A, 9V/1.34A, 9V/2A,12V/2A
Wireless Output	5V/1A, 9V/0.83A, 9V/1.12A,9V/1.67A
Charging Efficiency	⩾70%
Transmission Distance	⩽8mm
Product Size	137.3 x 69.3x10 mm
Weight	145 g

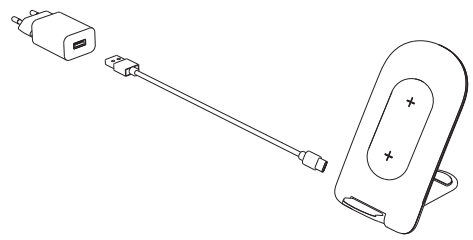
PRODUCT STRUCTURE AND COMPOSITION



① **Transmitter**
② **Silicone pad**
③ **LED touch switch**
④ **Stand**
⑤ **LED**
⑥ **Input port**

HOW TO USE

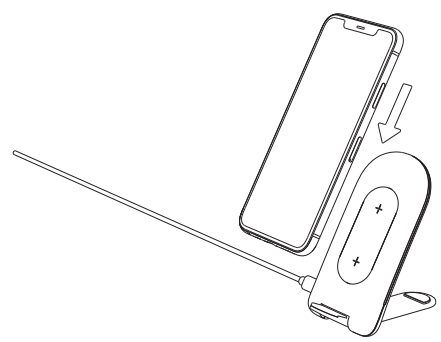
Charging your wireless transmitter



• Charge your wireless transmitter via included Type C data cable.
• Wireless transmitter is ready for your mobile device.

Charging mobile device from wireless transmitter

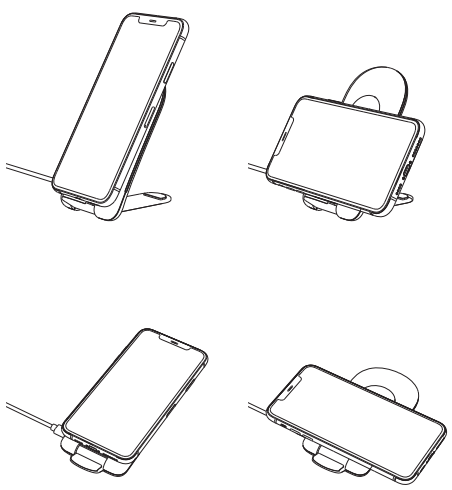
• Put your mobile device (the phone you used must be able to support the wireless charging or your phone are equipped with wireless receiver chip) .



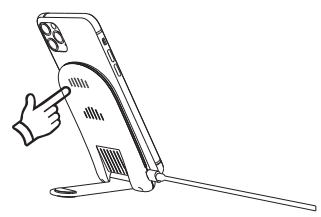
When your wireless transmitter working improperly

• Clean the clutters on the wireless transmitter.
• When the wireless transmitter is over-heating, take your mobile device away from your wireless transmitter The transmitter will stop charging automatically when over-heating. Please try charging again when the wireless transmitter cooling down.

Reference for correct placement



LED usage



The product is with LED indicator
When power on and standby: **Light is red**
When wireless charging: **Light is blue**

Tips: When you do not need the light on, you can touch the touch switch on the back of the product to turn off it

REMARKS

1. The charging adapter you used should meet with QC2.0, QC3.0 or QC4.0 standard.
2. The Type C charging cable you used should be the data cable, not the charging function only.
3. It's normal that this charger and your smart phone will be hot under operating conditions, especially when the phone charging and using at the same time(such as playing music).
4. The charging adapter is not included. A charging adapter is required.
5. Not works with 5V/1A or lower input. For safety, please do not use less than 5V/1A input charger or USB port to power up.
