

MAGFAST®

FCC ID: 2A2Y4-AIRPRO Warning Statement

Applicable to FCC Part 15C and Part 15B Class B products.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has been tested and meets the limits for a Class B digital device under Part 15 of the FCC Rules. These limits are intended to provide reasonable protection against harmful interference in residential environments. This device can generate, use, and radiate radio frequency energy, and if not installed or used according to the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular setup.

If this device does cause interference to radio or television reception—which can be checked by turning the device off and on—the user is encouraged to try one or more of the following remedies:

- Reorient or relocate the receiving antenna.
- Increase the distance between the device and the receiver.
- Connect the device to a power outlet on a circuit different from that of the receiver.
- Seek assistance from the dealer or an experienced radio/TV technician.

MAGFAST®

FCC RF Exposure Statement:

This equipment complies with FCC radiation exposure limits set for an uncontrolled environment. For safe operation, it should be installed and used with a minimum distance of 20 cm (about 8 inches) between the radiator and your body.
