## Precautions

**Caution**

1. Do not look into the lens when it is turned on and in the screen mode. Strong light may damage your eyes. Do not let children look at the lens when it is turned on. Keep away from children. Display is electrical.

**Warning**

1. Do not disassemble the product. If disassembled, no repair is provided (electric shock, short circuit, fire, etc. may occur). Do not place heavy objects on the product, or place it near a heat source (heater, etc.). Do not place it in a place where water or foreign substances may enter (electric shock, short circuit, fire, etc. may occur).

**FAQ**

1. Cleaning the screen and lens:
   Use a soft cloth moistened with a mild neutral detergent and wipe gently. Do not use strong detergent or chemicals (such as alcohol or thinner).
2. Cleaning the projector: Use a soft cloth moistened with a mild neutral detergent and wipe gently. Do not use strong detergent or chemicals (such as alcohol or thinner).
3. Storage: Remove the battery and place the lens cap and carrying case in the carrying case for storage. Do not place it in a place where water or foreign substances may enter (electric shock, short circuit, fire, etc. may occur).

**Power Supply**

1. Connect to the power plug only if there is an outlet nearby, and turn off the power to the outlet when unplugging the plug.
2. Do not use the power cord if it is damaged or deformed.
3. Turn off the power to prevent electric shock when the power cord is damaged.
4. Do not touch the power cord with wet hands, otherwise electric shock may occur.
5. Do not use the power cord for purposes other than the specified purpose, otherwise fire may occur.

**Other**

1. The disassembling and modification of the equipment is not permitted, otherwise it may cause injury, fire, electric shock, etc. Please contact the manufacturer for disassembling and repair.
2. If there is a fault or smell, immediately stop using the equipment and unplug the power cord, otherwise it may cause injury, fire, electric shock, etc. Please contact the manufacturer for repair.
3. **This is a Class A product. This product may cause radio interference in the home environment, in this case, the user may be required to take practical measures against the interference.**

## FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC and IEC Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies with IEC 60825-1 Ed. 1.2 Class 1 laser product specifications.
